Researchers say Nevada's Lehman Caves are 1 million years old By Henry Brean LAS VEGAS REVIEW-JOURNAL Jan. 28, 2012 | 2:00 a.m.

It's Nevada's largest and best-known hole this side of the Yucca Mountain tunnel, and new evidence suggests that Lehman Caves may be at least twice as old as originally thought.

Researchers studying formations in the cave for evidence of climate change have determined that the limestone cavern at the heart of Great Basin National Park probably has been around for at least 1 million years.

Visitors have long been told that the cave network was probably formed about 500,000 years ago.

"That was the number that was sort of handed down over the years by cave specialists. I don't think we had any hard data to back that up," said Ben Roberts, chief of natural resources for the national park 300 miles northeast of Las Vegas.

The new age estimate now being given on tours of the cave was arrived at by measuring the radioactive decay of small amounts of uranium that have percolated through the cave and collected in its stalagmites, stalactites and other formations. The assumption is the cave must be at least as old as its oldest formations.

As far as Roberts is concerned, the discovery only adds to the splendor of Nevada's largest cave.

"The cave is beautiful and amazing, and now you know you have something that may have been there for more than a million years," he said.

A team of geochemists from Massachusetts Institute of Technology and the universities of Arizona and Minnesota came up with the new age for Lehman in the fall, but that's not what they set out to do.

Roberts said their research is focused on far more recent climate events -- wet and dry periods that are recorded in the cave formations and could provide clues about past conditions and what might be in store.

"They're really interested in the last 20,000 years and the links to climate change," he said.

The work is being done against the backdrop of a controversial plan by the Southern Nevada Water Authority to pump groundwater from two valleys bracketing the national park and pipe it to Las Vegas.

Park officials have expressed concern about how large-scale pumping could affect moisture levels in Lehman and other caves in the area. Studies are now underway to determine baseline water levels in the park as a sort of early warning system when -- or perhaps if -- the authority is allowed to start up its pumps.

The findings by climate researchers are based on samples taken from stalagmites and stalactites that were broken and removed from the cave in the early years of its development as a tourist site.

"We're not going out knocking formations off the ceiling or the floors to get these readings," Roberts said.

About 28,000 people toured Lehman Caves last year. The ornate series of caverns stretches for just over a mile, but most visitors see about half to three-quarters of it, depending on the length of the tour.

A rancher named Absalom Lehman is widely credited with discovering the cave in the 1880s.

President Warren G. Harding declared Lehman Caves a national monument in 1922, but the site was left in the hands of private operators who had meetings, dances and weddings underground for almost a decade.

The monument was absorbed into Great Basin National Park when the 77,000-acre preserve was created in 1986.

Roberts said Lehman is far smaller than Carlsbad Caverns in New Mexico or Mammoth Cave in Kentucky, but it ranks among the finest anywhere in terms of formations. "It's exceedingly well decorated," he said.

Ongoing research is expected to help narrow the new age estimate even further.

"Who knows?" Roberts said. "We might be pushing 2 million years old or two and a half."

We'll know as soon as the tour guides do.

100 Weirdest Phobias Fears you never heard of

Sophophobics should stay away, because you'll probably learn something and sophophobia is the fear of learning. There are phobias about peanut butter sticking to your mouth, beautiful women, long words, time, otters, ferns, flutes, mirrors, and more. Chances are you don't have Cathisophobia (fear of sitting down) because that makes working at the computer difficult. Don't be scared to click...

Nevada History Day One Pager.pdf Volunteer Flyer.pdf

The annual National History Day, Nevada for northern Nevada is scheduled for Saturday, March 31st. Judging will take place at Wooster High School in Reno. This is a program largely organized and executed by volunteers and we are putting out a call for volunteers to help with judging, registration, orientation and keeping order. The volunteer support groups from our museums have been generous in supporting this event in the past and we hope they will do so this year as well. Schedules can be as long or as short as you want.

Please see the attachments to this email. I would appreciate it if you would make these available to your anyone you might think would be interested and encourage participation. Thank you.

If you have any questions, please contact me or

Christine Hull, Nevada Department of Education, 700 E. Fifth St., Carson City, NV 89701-5096 Email: chull@doe.nv.gov Phone 775-687-9189

Nominate a Hasbro Community Action Hero Today!

I wanted to let you know that generationOn is now seeking nominations for the Hasbro Community Action Hero award, which recognizes youth (ages 5-18) for completing outstanding community service. Nominations will be accepted through Tuesday, March 6, 2012 at 5pm EST. If you know any young people who are making a difference in their local or global communities, please consider completing a nomination form (http://bit.ly/HCAHapp). All the details are below. Thanks! - Laura Rog, generationOn

If you have any questions about the award, please contact Elizabeth Kaeser at ekaeser@generationOn.org

Do you know a young person between the ages of 5 and 18 who has done remarkable community service in the past 12 months?

GenerationOn and Hasbro Children's Fund are seeking nominations for the 2012 Hasbro Community Action Hero Award. This award recognizes five outstanding young volunteers, ages 5 to 18, who demonstrate that you are never too young to make a difference in your local or global community. Hasbro Children's Fund and generationOn will celebrate the selected young people for their extraordinary community service and volunteer activities at a special recognition event in New York City. Each awardee will also receive a \$1,000 educational scholarship.

Nominees must meet the following criteria:

- •Be enrolled in school (grade K-12) and age 5-18 at time of nomination
- •Be a resident of the 50 United States or District of Columbia
- •Be available to travel to New York City for a special, expense-paid, two day, one night trip to New York City on May 31 to June 1, 2012

GenerationOn will be accepting nominations for the Hasbro Community Action Hero Award from now through March 6, 2012 at 5 p.m. EST. Click here: http://bit.ly/HCAHapp to learn more about how to nominate a Hasbro Community Action Hero today.

What is generationOn?

GenerationOn is the global youth service movement igniting the power of all kids to make their mark on the world. GenerationOn has brought

the nation's leading youth service organizations and programs under one umbrella including New York-based Children for Children, The League, Learning to Give, Points of Light Institute's Kids Care Clubs, HandsOn Schools and HandsOn Network's youth-driven programs. By partnering with teachers, parents, schools, community organizations and businesses, generationOn gives kids the opportunity to see firsthand the issues in their communities and the tools and resources they need to respond and become part of the solution. Visit generationOn.org for more information.

Scholarships with Imminent Deadlines

Title: 2012 AISES Google Scholarship **Deadline:** February 29, 2012

Who: American Indian, Alaska Native, Native Hawaiian & First Nations from Canada AISES members pursing degrees in computer science, computer engineering and related programming fields

Award: \$10,000 for those studying in U.S. and \$5,000 CAD for those studying in Canada & All-Expense paid invitation to 2012 Google Scholars' Retreat held in July 2012 in Mountain View, CA.

Website: http://aises.org/what/programs/scholarships/info/googlescholars/

Contact: Liz Encinias 505-765-1052 ext. 107

\$10,000 USD total award for those studying in the US and \$5,000 CAD for those studying in Canada and an all-expenses paid invitation to the 2012 Google Scholars' Retreat held in July 2012 in Mountain View, CA. The retreat will feature opportunities to network with Googlers and other student scholarship recipients to build a community of peers with similar interests and backgrounds. There will also be workshops and panels to enhance your career development and skill sets.

Eligibility:

-3.0 (4.0 scale) or higher GPA

- -full-time undergraduate or graduate student at an accredited institution; 2-year student must demonstrate a transition plan to a 4-year college/university
- -Must be a member of an American Indian tribe Alaska Native, Native Hawaiian, or First Nations of Canada (1/4 American Indian or Alaskan Native)
- -Must be a member of AISES
- -Current college sophomore or higher
- -Must maintain a strong academic performance

Title: Emerging Archival Scholars Program

Who: Junior Undergraduates & first-year Master's students; American citizens and lawful permanent residents are eligible including: African American, Hispanic/Latino, Asian/Pacific

Islander, Native American, or Puerto Rican, among others who will add diversity to the field of **Archival Studies**

Deadline: March 1, 2012 Website: http://aeri.gseis.ucla.edu/fellowships.htm#easp_program/

kwhite@ou.edu 405-325-3921 Contact: Kevin L. White, Ph.D.

The Archival Education and Research Institute (AERI) is pleased to announce a recruitment and outreach scholarship program to encourage minority students at the undergraduate and graduate levels to consider undertaking doctoral education focusing in Archival Studies, a multidisciplinary field that examines the social, cultural, political, and technological imperatives and professional practices of record keeping and remembering in society. The program, which is supported by the Institute of Museum and Library Services, is designed to introduce students to the nature of doctoral education and the rewards and demands of a research-oriented career, e.g., as a professor, in the archives field. Our goal is to stimulate and begin to nurture the growth of a new and more diverse generation of scholars who are versed in interdisciplinary research that addresses issues in Archival Studies, broadly conceived.

Eligibility:

Applications will be considered only from undergraduate students who have completed their junior year, and students who have completed their first year of a Master's degree program, but have not received a Master's degree by the time AERI 2012 begins. Applicants must have a grade point average of at least 3.0 (on a 4.0 scale) and be successfully moving toward an academic major in any field. No prior knowledge of or experience in Archival Studies is required.

Title: Scholarship from the Center - Columbia University's Summer Program for H.S. **Students**

Who: Students of Native American descent and entering 9th, 10th, 11th or 12th grade in the 2012-2013 school year Deadline: March 2, 2012

Application: http://www.aspeninstitute.org/files/cnay-application-summer-programs-hscolumbia Location: New York, NY

Website: http://ce.columbia.edu/Summer-Program-High-School-Students-NYC

Contact: hsp@columbia.edu

Title: The Udall Scholarship **Deadline:** March 5, 2012 **Awards:** \$5,000

Title: Resolving Indigenous Claims Through Human Rights Mechanisms

Who: Lorie M. Graham & Nicole Friedrichs **Date:** Thursday, February 23,4-6pm

Location: UMass Boston, Healey Library, 11th Floor, Room B

Contact: Professor Amy Den Ouden, Dept. of Anthropology, UMass Boston amy.denouden@umb.edu

A lecture on the international indigenous rights movement, the adoption of the UN Declaration on the Rights of Indigenous Peoples, and how human rights mechanisms may be applied to address indigenous rights claims, with special attention to dispute resolution and the way human rights mechanisms have been employed in the Western Shoshone case.

Preceded by film screening -12:30 pm, 2/23, Healey Library (11th floor, Rm. B)

OUR LAND, OUR LIFE

A documentary about Western Shoshone Elders Carrie and Mary Dann, and their struggle to protect Western Shoshone sovereignty and sacred lands in Nevada from threats posed by the gold mining industry.

Lorie Graham holds an LL.M from Harvard Law School and a J.D. from Syracuse University. She has served as legal consultant on a range of matters impacting indigenous nations in the United States, such as land claims, economic development, environmental protection, and jurisdictional disputes. She teaches courses on Indigenous Peoples' Rights, Property, and International Human Rights. She has served as an author for *Cohen's Handbook of Federal Indian Law* and has recently published the book *International Law: Examples and Explanations*. She is also the author of a numerous law review articles and book chapters on the rights of indigenous peoples and international human rights.

Nicole Friederichs holds an LLM in Indigenous Peoples Law and Policy from University of Arizona and a JD from Suffolk University Law School. Currently she teaches an Indian Law and Indigenous Peoples Clinic at Suffolk. She has practiced federal Indian law and international human rights law and has worked on a range of issues, including jurisdictional cases between Native American tribes and New England states, and indigenous peoples land rights cases before the international and regional human rights bodies. She has published articles on the Maine Indian Claims Settlement Act and indigenous human rights and environmental justice.

What: Colorado Center for Biorefining and Biofuels Research Experience for Undergraduates **Who:** Students from all majors are eligible to apply. Applicants should be interested in researching bioenergy.

Website: www.C2B2web.orgwww.C2B2web.org Deadline: February 26, 2012

Duration: Summer 2012 **Contact:** C2B2@colorado.edu

The C2B2/NSF REU program offers undergraduate students the opportunity to engage in meaningful research alongside faculty, post-doctoral researchers and graduate students at each of our four partnering institutions. Students will be conducting research in one of C2B2's six thrust

<u>areas</u> at either the University of Colorado in <u>Boulder</u>, Colorado State University in <u>Ft. Collins</u>, Colorado School of Mines in <u>Golden</u> or the National Renewable Energy Laboratory in <u>Golden</u>.

Along with research duties, all students participate in educational seminars, C2B2 institution site visits, industry site visits, planned social activities and cultural experiences.

Students will learn how researchers of varying disciplines at all four sites collaborate to solve biofuel and biorefining challenges. This program provides the students a rich and diverse ten week experience within the beautiful backdrop of the Colorado Rocky Mountains.

What: University of Utah Native American Research Internship

Who: Native American students in health science research of junior or senior standing in *any* undergraduate program

Website: http://medicine.utah.edu/pediatrics/research_education/native_american/index.htm

Deadline: February 24, 2012 **Duration:** May 29 – August 3, 2012

Contact: Richard White (richard.white@hsc.utah.edu)

Description:

The Native American Research Internship is a dynamic summer research opportunity for Native American Undergraduate Junior and Senior students who are interested in Health Science research. The internship is located at the University of Utah in Salt Lake City, Utah. It is a 10-week, paid summer internship, funded by the National Institutes of Health. The internship focus is to provide Native American students an outstanding laboratory or clinically based research experience working alongside world class research faculty at the University of Utah. The goal of the internship is to support the academic, career, and personal development of Native American students who are interested in Health Science careers.

Minerva Soucie

From: Elizabeth Woody [mailto:woodye@ambcs03.stccmop.org]

You will find a pdf that talks about Minerva's services and some of the circumstances around her untimely passing. I hope that you can view this segment and learn about someone who contributed to the Oregon culture and national reassure. Please, think kindly of this person. She was amazing. http://web1.opb.org/programs/artbeat/segments/view/225

From: Rebecca Dobkins [mailto:rdobkins@willamette.edu]

My dear friends--

I have the sad responsibility to let you know that our friend and elder Minerva Soucie passed on over the weekend.

Her funeral services are this Saturday February 25, at 12 noon, at the Burns Paiute tribal community center. The announcement is attached; Charisse has asked me to share this with anyone who knew Minerva. If you wish to send thoughts to the family, you may email them to me and I will be sure to pass them on.

Rebecca J. Dobkins, Professor of Anthropology, Curator of Native American Art 503 370-6639 Hallie Ford Museum of Art, Willamette University, 900 State Street, Salem OR 97301

How Long Do Seeds Last?

From the NY Times: Russian scientists have regenerated an ancient plant from its fruit, frozen in the Siberian tundra some 32,000 years ago!
