Idol No More 2013 - Cherokee N.C.

Round dance in the middle of the street in Cherokee. Next time for all those living near Cherokee ... it was a beautiful day, not sure why you all indoors some where, but we could have used a lot more smiling faces in this peaceful march ... can you say ... I will make a afford to be there next time because it's going to be fun and we are going to be loud /heard. Length: 3:58

Focus on Preserving Heritage Can Limit Foster Care for Indians

By DAN FROSCH

A chronic shortage of licensed Indian foster families in many states complicates the ability to allow Indian children to remain connected with their heritage at a turbulent time.

RSIC Language Classes

Paiute Language Classes:

Instructor: Ralph Burns
Classes Duration: February 4 - June 3, 2013
Class Location: 34 Reservation Road
Classes will be every Monday from 6:00-8:00 PM
All classes are potluck; please bring a dish to share!

Washoe Language Classes:

Instructor: Krystal Blackowl
Classes Duration: February 6 - June 5, 2013
Class Location: RSIC Library
Classes will be every Wednesday from 6:00-8:00 PM
All classes are potluck; please bring a dish to share!

Shoshone Language Classes:

Instructor: Florence O'Neil
Classes Duration: February 7– June 6, 2013
Class Location: RSIC Library
Classes will be every Thursday from 6:00-8:00 PM
All classes are potluck; please bring a dish to share!

NEW ADVISORS TO EASE TRANSFERS FROM CSN TO UNLV

Leaders from UNLV and the College of Southern Nevada will announce a new partnership today that aims to make transferring to the university easier. "You hear stories about students having trouble transferring," said Darren Divine, CSN's vice president for academic affairs. "A lot of times, it's because students haven't been given reliable information."

<http://erj.reviewjournal.com/ct/uz3688753Biz15813964>

Scholarship Season is Here

[Find the right scholarship for your on the nevadafund.org Scholarship Match page.](#)

Applications for the majority of the the Foundation's three dozen scholarships are due February 28, 2013. Students can link to applications at the Community Foundation's website, www.nevadafund.org.

The Community Foundation of Western Nevada administers scholarships established by families to honor loved ones, corporations and private foundations.

Program Associate, Dani Lutzow said, "The Community Foundation Scholarship program is one of a kind in northern Nevada because it offers such a wide array of scholarships to a diverse group of students. In some cases, scholarships are given to the students who are not "A" students and rarely considered. There are scholarships for high school athletes, scholarships to help re-entry women, graduate students and even a scholarship for preschool tuition."

Students should look at the Scholarship Match page on the Foundation's website: nevadafund.org to find scholarships that match their academic interests.

Scholarships reflect the values of the people and businesses that funded them.

The last two years of scholarships from the **Hispanic Heritage Nursing Scholarship** have been funded by an anonymous donor. This scholarship has helped several students each year pay for nursing school at TMCC or UNR.

The **Northern Nevada Youth Scholarship** supports students who will not qualify for other scholarships based on G.P.A., but demonstrate commitment, passion, and drive. This student will not be eligible for high G.P.A. scholarships, or the Millennium scholarship and has shown a renewed dedication to their studies and increased their G.P.A. over their junior and senior year.

The **Kennedy Foundation scholarship** hopes to make it possible for parent's to say "YES!" when their hard-working, high achieving student is accepted into one of the best universities in the nation.

The **NV Energy Powerful Partnership scholarships** reward community service and leadership qualities, as well as scholastic endeavors.

For more information about the scholarship programs at the Community Foundation of Western Nevada students should call Dani Lutzow, Program Associate at 775-333-5499.

Nevada Diabetes Association

The first Guidelines for Managing Type 2 Diabetes in Children have finally been developed. Type 2 diabetes in children and teens can be prevented or delayed. Unfortunately with the growing epidemic of obesity in the young this form of diabetes is on the rise.

NNADV: Public Policy Regrets and Promises

As we end 2012 without reauthorizing the Violence Against Women Act (VAWA) and begin 2013 with the Nevada legislative session only a month away this is my chance to highlight the disappointments of 2012 and the hopes for 2013...

VAWA Reauthorization

Last year, Congress took up reauthorization of the Violence Against Women Act (VAWA) with versions of the reauthorization passed in the Senate (S1925) on a bipartisan basis and in the House (HR 4970) on a partisan basis. Unfortunately, there was no appetite to develop a compromise bill that could pass both houses and provide important new protections for LGBT, immigrant and Native American victims as well as victims on college campuses and in communities of color; protections that insure that all victims have access to safety.

The major sticking points were the expansion of tribal jurisdiction over crimes committed on tribal lands by non-natives and provisions to assist immigrant victims. While seemingly modest changes they ended up derailing the reauthorization process. For a complete overview of the issues, visit <http://4vawa.org/>.

Having failed to reauthorize VAWA in 2012 there will be a concerted effort to insure reauthorization in 2013. Please stay tuned to see how you can help.

Nevada Legislative Session

The Nevada State Legislature reconvenes on February 4, 2013. While still in process there are already more than 880 bill drafts. We are tracking two bills that will directly impact domestic violence victims. Assemblywoman Teresa Benitez-Thompson (D-Washoe) is introducing a bill to update victim information provided by law enforcement with information about including pets in protective orders. Assemblywoman Lucy Flores (D-Clark) will be introducing a bill to provide victims of domestic violence an avenue for breaking a lease for safety reasons.

There are also at least five different bill drafts dealing with trafficking. AB 67 prefiled on December 20th by the Committee on Judiciary on behalf of the Attorney General is an omnibus bill that will expand and improve Nevada's laws on sex trafficking. As Assemblyman Hambrick (R-Clark) will have at least two bills addressing trafficking as will the Legislative Committee on Child Welfare and Juvenile Justice.

There will be other bills addressing topics such as bullying, child abuse, elder abuse, divorce and child custody, sexual assault and other issues that we will be tracking. The 2013 Legislative Session will provide an opportunity to improve safety for victims and strengthen our community's response to violence against all people.

If you are interested in getting involved this session, please check out the Nevada Women's Lobby Grass- roots Lobby Days scheduled for March, or visit the Nevada Legislature's website for more information about bills, committee meetings and how the legislature functions. Let's make sure we keep our promises in 2013!
Sue Meuschke

Ed note: Amused by transition phrase in 1.23 Education budget hearing. What used to be referred to as "cow counties" is now "frontier district".sdc

Lobbying Your Legislator from Nevada Women's Lobby

Wikipedia defines lobbying as "the act of attempting to influence decisions made by officials in the government, most often legislators or members of regulatory agencies." The importance of lobbying your legislators cannot be overstated--after all, how can your representatives represent you if they don't know your position on issues? There are several ways to contact state legislators. All of them carry a big impact, especially when you identify yourself as a constituent!

Visit the website of the Nevada Legislature to find contact information for each senator and assembly member: <http://www.leg.state.nv.us/Session/77th2013/legislators/>. This link can also be used to find out who your legislators are if you are not certain.

Call your representatives. Be aware that you will almost certainly be speaking with a staffer in your representative's office, but know that each caller's concerns and opinions are noted. Your call is important.

Email your representatives or send a fax. This is an easy way to let your representative know how you feel about a particular issue or piece of legislation. Be sure to keep your note focused and concise, include the specific piece of legislation you are referencing by the bill number or issue and include your contact information.

Send a letter addressed to your senator or assembly member, Nevada State Legislature, 401 South Carson Street, Carson City, NV 89701. Writing a letter allows you to give more detail regarding your opinion on a specific issue, and also affords you the opportunity to include reports and/or data that support your position. Taking the time to draft a thoughtful letter shows how strongly you feel.

Take the opportunity to meet with your representatives at public events. This gives you the chance to ask them questions, learn about their views and share yours. In this setting you have to be specific and concise, as you may not have a great deal of time for discussion.

When lobbying, it is important to know your facts and to demonstrate your passion for the issues. Always be respectful. Your aim is not to argue or make personal attacks, but to share your opinions and have constructive discussions about the issues.

How Obama Could Nix the Keystone Pipeline (And Why He Won't)

David Wagner, The Atlantic Wire

Wagner writes: "President Obama will be confronted with the first big policy decision of his second term where environmentalists and business interests are at odds: the Keystone XL oil pipeline."

While California considers fracking rules, legal battles flare elsewhere

Los Angeles Times

As California considers rules for hydraulic fracturing, a legal battle in Wyoming over regulations for the controversial drilling process could underscore the flash points in the coming debate here.

Natural Gas May Be Worse For Climate Than Feared

[Chris Clarke](#), KCET

Natural gas has often been touted as an energy source that offers a cleaner-burning "bridge" away from other fossil fuels like coal and oil. However, recent studies of leakage from gas fields and production facilities suggest that natural gas use may be far more dangerous to the planet's climate than expected -- with potentially serious ramifications for solar thermal generating plants as well.

Kayapo Damned: Brazil government OKs hydro plant, condemns 40,000 lives

A desperate picture: Brazillian Kayapo tribes take to Western courts to protest the Belo Monte hydroelectric dam that will wipe out their land and homes. Thumbnail Credit: [cultofthedeafish.blogspot.com](#)

[Brazilian president Dilma Rousseff](#) has given approval to build a hydroelectric plant – the third largest in the world - at [Belo Monte](#) on the [Xingu River](#) in [Brazil](#)'s northern Amazonian region.

The region is currently home to huge local communities, totalling 40,000 people, the majority of whom will be flooded out when water levels eventually eradicate 400,000 hectares of ancient forest and towns.

Despite this, and despite significant protest from the tribal communities in Western courts – no mean feat, mind you – approval was passed without the slightest resounding outcry from the world.

It pisses me off that globally we care more about stopping [Internet Copyright laws](#) like SOPA and [Protect-IP](#) than the lives of 40,000 [human beings](#)’ homes in the name of business profits.

The [Amazon region](#) should belong to the world, as the Internet does, and the world should get pissed off at things threatening it just as if your local government signed papers that meant they could build a highway through your house whenever they felt like.

What’s about to happen to the [Kayapo](#) community will be more devastating than the [2011 Queensland Floods](#).

Yet this time, it’s deliberate, and it’s OK.

“While newspapers and television talk about the lives of celebrities, the chief of the Kayapo tribe received the worst news of his life: [Dilma](#), “The new [president of Brazil](#), has given approval to build a huge [hydroelectric plant](#) (the third largest in the world). It is the death sentence for all the people near the river because the dam will flood 400,000 hectares of forest. More than 40,000 Indigenous Indians will have to find another place to live.

The natural habitat destruction, deforestation and the disappearance of many species is a fact.”

The reaction of the chief of the Kayapo community when he learned of the decision— was to break down into sobs of helplessness before the advance of capitalist progress:

This is the price [Western countries](#) pay for your “quality of life”. The hypocrisy levelled at governments who wouldn’t dare try this on a first world citizens utterly reeks of racism, discrimination, crimes against humanity, biased laws and total ignorance of land rights. If this kind of stunt were to be pulled on a person like you and your home today, the entire world would know about it overnight and all hell would break loose.

But 40,000 Brazillians? Nup. Fuck them.
