USDA OFFICIALS WILL ANSWER QUESTIONS ABOUT THE 2014 FARM BILL AT A

MEETING SEPT. 8: Representatives from the U.S. Dept. of Agriculture will hold a meeting in Salinas, CA on Sept. 8 to answer questions about the 2014 Farm Bill. The legislation brought changes in conservation, commodity programs, crop insurance, rural development programs, loans, disaster programs, energy opportunities and other provisions, many of which will take effect Oct. 1, a news release explains. Officials from the USDA's Farm Service Agency, Risk Management Agency, Natural Resources Conservation Service and Rural Development program will discuss

opportunities for growers and new eligibility requirements.

TRIBAL CONSULTATION ON ADMINISTERING NUTRITION PROGRAMS: The U.S. Dept. of Agriculture (USDA), Food and Nutrition Service (FNS) plans to work with tribal nations and their leadership to determine the feasibility and interest of tribal nation administration of federal nutrition assistance programs, in lieu of state agencies or other administrative entities administering USDA FNS programs. This important study will result in a report to the U.S. Congress in fall of 2015 and may ultimately result in changes in the administration of some nutrition assistance programs based on guidance from tribal leaders. The first part of this process will consult with tribal nations to determine the extent of tribal interest in administering USDA FNS programs, with specific focus on 1) the Supplemental Nutrition Assistance Program (SNAP), 2) the National School Lunch Program, 3) School Breakfast Program, 4) the Special Supplemental Nutrition Program for Women, Infants and Children, and 5) the Summer Food Service Program. USDA invites you to participate in the first of a series of formal tribal consultations with tribal nations and their leadership on either of the following dates: Thursday, September 11, 2014; 2 p.m. - 3:30 p.m. EDT and Monday, September 22, 2014; 2 p.m. - 3:30 p.m. EDT

To participate in either consultation, please register at: <u>https://www.research.net/s/</u> <u>TribalConsultation2014</u>

Elouise Cobell is probably spinning in her grave

By Tim Giago Native Sun News Editor/Publisher

The process of settling the so-called Cobell settlement has turned into a joke, except it is not one of those "ha –ha" jokes, but one of those jokes that can bring tears to one's eyes.

The Cobell settlement is a result of the government's total mismanagement of Indian lands, mineral rights, grazing rights, natural resources and money and was so badly accounted for that for more than 200 years the Indians lost untold billions by hook and crook.

The Cobell settlement was a pittance in remuneration because the accountability of the agencies

holding Indian properties, etc., in trust was so jumbled with distortions and cover-ups that true accounting was indeterminable. The pittance individual Indians received in Cobell cash payments prior to Christmas of 2013 should be a mark of shame on the history of America itself.

Where was the national media in uncovering this mess? They were probably busy filming and writing about the "drunken Indians" at Whiteclay, Nebraska's firewater holes.

What makes the settlement even more unbelievable is that more than \$1 billion was given back to the Bureau of Indian Affairs to clear up the fractionated land (buy-back) programs abundant on nearly all Indian reservations, a problem created by the BIA itself. Yeah, let's take a billion dollars from the poor individual Indians and give it back to the nincompoops who caused the problem to remedy their incompetency. What a travesty!

Well, the Interior Department turned over the accounting and payment system for the Cobell settlement to the Garden City Group, whatever that is, and it has raised the hackles of every Indian that was ever owed money by the government. The second payment of the settlement has dragged on now for nearly one year after the first payments were made and the promises at that time were that the next payments would come in the early spring of 2014. Well, that date has come and gone we are still waiting and wondering.

We do not all have wildly successful casinos or we could have turned down the initial legal settlement and called for the settlement that was originally planned by Elouise Cobell. She determined that the theft of Indian monies totaled 10 times what the government finally agreed to pay. She was overruled by a bank of lawyers who all got paid first and could have cared less that their clients, the American Indians, the neediest, would be left holding the bag.

The sad thing is that Native Americans will never be able to go back and say, "Hey, you cheated us out of billions again," because once they accepted a single penny of the settlement, the legal door was closed.

Leaders like the late Charlie Colombe, former President of the Rosebud Sioux Tribe, brought a counter suit against the Cobell lawyers questioning the way the payments were determined and why such a tiny, tiny amount was awarded. Some Indians really got angry at Charlie for "holding up our money" when they should have been supporting his lawsuit and praising him for trying to get them some real money.

Let's face it; the federal government dodged another Indian arrow. They figured an impoverished people would not have the patience or the time to wait. You cannot hold a sandwich in the face of a starving person and not expect they are going to reach for it.

And so the beat goes on. While the Garden City Group dawdles in a poor imitation of the Interior Department, the real victims of this farce wait on the sidelines; and Elouise Cobell is probably spinning in her grave. What started out for her as one of the noblest gestures to honor Native Americans by paying them for all of the land, minerals and resources stolen for them for more than 200 years has gone up in smoke because of greedy lawyers and a recalcitrant federal government. Doesn't that sound a lot like history repeating itself?

What Native Americans ended up with was "We can't pay them what they are asking so let's just give them enough to shut them up." This has been the lot of Native Americans since the first settlers set foot upon this continent.

We were cheated out of what was rightfully ours then and we were just cheated out of what was rightfully ours now. Most Indians got just enough to buy a beat up used car when they should have got enough to buy a new house. God bless America!

Comstock Mining Update:

At its meeting of August 21 the Storey County Planning Commission voted to recommend approval of Comstock Mining Inc's request for amendments to its SUP. The issue will come before County Commissioners McBride, Gilman and Sjolvangen who are poised to approve it. That will mark the end of Gold Hill as a living community.

Here is a recap of recent activity.

ARCHIVE RESOURCES (One always finds "stuff" in the least expected places......sdc)

Founded in 1994, the **Deer Valley Rock Art Center** has the largest concentration of Native American petroglyphs in the Phoenix Valley. Visitors hike a quarter-mile trail to view over 1,500 petroglyphs made between 500 and 7,000 years ago. Voted a Phoenix Point of Pride, Deer Valley Rock Art Center is a destination for families to learn about archaeology in their own backyard. The museum aims to promote preservation, connection and respect for the site. Collection: Left for Interpretation: Petroglyphs and Artifacts

Fort Peck Tribal Library Website

The **Fort Peck Tribal Library** serves the whole Fort Peck Indian Reservation population of the Assiniboine and Sioux tribes as the major resource/research center for students, faculty, community, and professionals. As an academic library, the Library provides services and support for all courses offered at Fort Peck Community College. The Library collection includes over 10,000 titles and 123 periodicals with periodical support being added by an online database funded by the Montana State Legislature.

• Fort Peck Reservation Newspapers

Emery County (UT) Archives

The **Emery County Archives Collection** includes photos representing the history of Castle Valley: the towns, the people, coal mining, the uranium boom, ranching, rock art and other

evidence of the Fremont and Archaic Cultures, dinosaur fossils, the Huntington wooly mammoth discovery, and unique geologic formations and history of the San Rafael Swell. This collection contains private collections from individuals such as Elmo Geary's history of drama and theater in Castle Valley, John Niebergall's "Then and Now" pictures of the Manti-LaSal Forest and other areas of Emery County, and many others that showcase the history of the area.

Girl Scouts - Arizona Cactus-Pine Council Historical Society

The Council serves 2/3 of Arizona and the majority of girls who benefit from Girl Scout programs reside in Maricopa County. The Council also provides programming to girls living in Apache, Coconino, Gila, La Paz, Mohave, Navajo, and Yavapai counties, the northern half of Pinal and Graham counties, the portion of the Navajo Nation that extends into Utah and New Mexico as well as Laughlin, NV and Earp, CA.

The **Great Basin Museum** collection contains an assortment of historical photographs that depict historical events in infrastructure development in the Great Basin Area.

Friends of the River, C-WIN, CSPA and the Environmental Water Caucus call for new BDCP scoping of a reasonable range of alternatives including the Responsible Exports Plan Submitted by the Environmental Water Caucus: The letter reads: " Friends of the River (FOR), the California Water Impact Network (C-WIN), the California Sportfishing Protection Alliance (CSPA), and the Environmental Water Caucus (EWC) (a coalition of over 30 nonprofit environmental and community organizations and California Indian Tribes) are relieved to learn that the Bay Delta Conservation Plan website announced on August 27, 2014 that the California Department of Water Resources "and the other state and federal agencies leading the Bay Delta Conservation Plan will publish a Recirculated Draft BDCP. Draft EIR/EIS). and Draft Implementing Agreement (IA) in early 2015." The announcement also states that: "The scope of the partially recirculated draft documents will be announced in approximately six to eight weeks. The recirculated documents will include those portions of each document that warrant another public review prior to publication of final documents." We look forward to learning of the scope of the recirculated documents by mid- to late October of this year. Our organizations have communicated several times with BDCP officials about analysis of alternatives in the BDCP process. ... "
