Taken from Tom King's blogspot ~ I Was Wrong

Back on April 27, I blogged about the newly published draft National Park Service (NPS) regulation on tribal plant gathering in National Parks (See <http://crmplus.blogspot.com/.../nps-plantmineral-gathering-re...>). I implied that the regulation was pretty good, and I assumed it was; after all, my late wife had worked diligently for some 20 years to make it happen. Well, I was wrong. It's a dreadful regulation. Below are the comments I ...

### **Bad Librarian! October 29, 2015 By Roz Warren**

I work at the circulation desk of my local public library. I recently handed a patron's library card back to her after scanning it, but I lost my grip and basically ended up throwing it at her instead. "I'm so sorry!" I said. "I didn't mean to do that."

"Yes you did!" she said.

At first I thought she was just joking around but she was dead serious. She really believed that I'd deliberately thrown the card at her. She lit into me, then promised to write an angry letter to my boss and stormed out.

Flabbergasted and shaken, I logged on to my favorite Librarian Facebook hangout and asked: What's the weirdest thing a patron has accused you of doing?

I got quite a few responses:

*One patron accused me of being "out to get her" because I told her that she couldn't use the computer because of her outstanding library fines. She got extremely hostile and wanted to "go outside and settle this."*

*A patron accused me of trying to kill him telepathically. Because I was Catholic.*

*I recently had a patron tell me that my face was wrong for working with children.*

*I am often accused of breaking the internet.*

*I had a patron repeatedly accuse me of being “spiritually abusive.” I still haven’t figured that one out.*

*We have a patron who believes that I am “stealing her information” and sending it to Vladimir Putin.*

*I’ve had several patrons accuse me of hiding tax forms.*

*I was once accused of being in the Portuguese Mob. (I didn’t even know that the Portuguese had a mob.)*

*I have been accused of being part of the Seth Myers clan of the Sea Pirate Mafia. I wish I were joking.*

*I was recently accused of being anti-Semitic. I’m a Jew.*

*I was accused of being racist when I wouldn’t let a woman check out materials without her library card or any identification.*

*I’ve been accused of engaging in cyber espionage and electromagnetic warfare. We’ve got some serious conspiracy theorists here.*

*I’ve been accused of reading someone’s thoughts. And then stealing them.*

*I had a little girl tell me that I wasn’t real because I had the same name as her imaginary friend and her mother had told her that imaginary friends weren’t real.*

*One of our patrons is convinced that I’m a CIA operative who is stalking her.*

*After I asked a member of the cleaning staff to stop leaving her dentures sitting on my desk, she “rebuked the Satan out of me.”*

*A patron once threatened to kill me when I told him that he had to move his cell phone call out to the lobby.*

*A patron who believes that the government is run by Satanic Reptilian Vampires accused me of treason because I refused to help her overthrow them.*

*Yesterday a homeless man accused me of moving the toilet when I asked him to stop urinating on the floor.*

*I’ve been told that my whole staff has racist body language.*

*I was accused of “making children turn gay” because we have LGBT-supportive books in our junior room collection.*

*A woman demanded that I apologize to her son because my aura was too strong and it upset him.*

*A white woman who was making a ton of noise accused me, another white woman, of being racist when I asked her to quiet down.*

*We have a patron who has accused me of having it in for him and adding fines to his card.*

*A patron whose internet I blocked lodged a formal complaint against me for interfering with his basic human right to watch pornography.*

*A patron once submitted a written formal complaint about me for “smiling too much.” He said it wasn’t professional.*

It may be unprofessional for a librarian to smile, but by the time I was done reading these comments, I had a big grin on my face. The lesson? You just can’t let the crazies and the hotheads get you down. Instead, you have to laugh. The important thing is that I wasn’t alone! My fellow librarians always have my back. And just like that, I was back to loving my job.

But the next time I’m wrongly accused by a paranoid patron, I just might enlist my pals in the Seth Myers Clan of the Sea Pirates Mafia to steal her information and send it to Vladimir Putin.

and sustainable initiative.

Take shuttles directly to Cow Palace from BART, enjoy a vegan & vegetarian menu as part of Green Festivals' work to spread healthy and sustainable initiatives in convention centers, and get your holiday shopping done with green businesses.

Bring your friends and family to America's largest and longest-running sustainability event and join us for:

- Inspiring speakers and sessions
- Green holiday shopping with over 250 local businesses
- Live music and performances
- Green fashion shows
- Yoga classes
- Adopt-a-pet
- Fun activities in the Green Family Zone

Visit our Green America booth, #2207, and meet our staff. We look forward to seeing you.

Sign language interpreters are available.

## **VETERAN ENTREPRENEURS HONORED DURING NATIONAL VETERANS SMALL BUSINESS WEEK NOV. 2-6**

**WASHINGTON** – The accomplishments of veteran small business owners around the country will be celebrated during National Veterans Small Business Week (NVSBW), Nov. 2-6.

### **Event Details      Cow Palace South Hall, North Hall & Arena**

**Friday: 12pm - 6pm**

**Saturday: 10am -**

**6pm**

**Sunday 10am - 5pm**

Arrive by bicycle, park at the Green Festival Bike Valet and receive **FREE** admission. Download the **BRAND NEW** Green Festival Expo App at the show for latest updates and information.

For the first time ever, Cow Palace is offering an exclusive and sustainable vegan/vegetarian menu! Vegan and Vegetarian cuisine is usually not offered at the Cow Palace but for Green Festival Expo there will be a fantastic menu. Green Festival Expo hopes to encourage this in more events and spread a healthy

U.S. Small Business Administration district offices and resource partners nationwide will host more than 100 local events, including Boots to Business: Reboot entrepreneurship training, access to capital workshops, discussions on franchising opportunities for veteran-owned companies, and small business development workshops for women veterans.

The U.S. Senate last week passed a resolution, introduced by Senator Jeanne Shaheen (D-NH), to designate the first week in November as National Veterans Small Business Week. The measure extends the Senate's appreciation to the nation's many small business owners who have served in uniform.

Scheduled events include Boots to Business: Reboot training in 30 locations nationwide, a lending discussion panel and a Women Veterans Entrepreneur Network ([WOVEN](#)) small business expo in Los Angeles, an online webinar for military spouses, a Women Veterans Igniting the Spirit of Entrepreneurship ([VWISE](#)) business development event for women veterans and military spouses/partners in Kansas City, and a session focusing on franchising for veteran business owners in Washington, D.C.

The twofold purpose of National Veterans Small Business Week is to applaud the success of veteran entrepreneurs, and to let transitioning military, veterans and their spouses and partners know about the SBA's programs and services. During the past year, SBA provided technical assistance to more than 200,000 veterans and ensured over \$1 billion in capital for businesses owned by veterans and their spouses.

In addition to the SBA's district offices and resource partners, the White House is involved in supporting NVSBW events. Join the conversation about NVSBW on social media using the #MyVetBiz hashtag.

SBA is encouraging veteran business owners to tell their stories, while urging the community to share their appreciation for local veteran entrepreneurs.

For more about NVSBW events happening in your area, visit [www.sba.gov/NVSBW](http://www.sba.gov/NVSBW)

Each year SBA helps more than 200,000 veterans, reservists and service-disabled veterans start and grow their small businesses. To learn more about additional opportunities for veterans available through the SBA, visit [www.sba.gov/vets](http://www.sba.gov/vets).

## **Digitizing History Course--Take It Next Spring! UNR**

History 300A will provide students with the ability to receive their history degree with the added benefit of tech skills to make them even more marketable.

## **Shared History: Community, History, and Our World**

The Shared History Program (SHP) and related coursework prepare students for research and interpretative careers utilizing the innovative presentation tools of the *21st century*. The cutting edge nature of Shared History offers students exciting opportunities to connect their training with real historical projects in the local community, to the benefit of both. It is a multi-faceted,

dynamic program that incorporates oral, public, and digital history. “Shared History” implies an inward and outward movement of ideas and projects; it drives the academic experience outward, while pulling the community inward. This provides a valuable intellectual opportunity for both faculty and students at UNR, and enhances community outreach and experience. SHP works to enhance historical understanding of the local community, and offers students valuable hands- on experience in acquiring and applying historical skills.

Shared History democratizes history, increases the accessibility of historical material and subject matter, and prepares student in new methodological and theoretical approaches to history. Several projects, which combined student, faculty, and community contributions, have been completed. For example, The JFK Assassination exhibit expresses the unique ability of Shared History to incorporate a broad base of resources, spanning national interests to community interests, and media to oral history. The oral history archive that was, with the help of students, digitized, is now online so that students and the community have access to this rich historical source at their fingertips. New oral, digital, and public history projects are being thought of and expressed by students and faculty on a continuous basis. The driving force of SHP is to provide these experiences to its students and the community; revealing the truly interdisciplinary touch that history has in our world.

### **Students and SHP: Scholarship and the Community**

The History Department offers classes in museum studies accompanied with various internship opportunities, public history, and oral history; these are all part of the united force of SHP. The department is focused on providing courses in research and historical methods, skill-based instruction and professional development. Our senior thesis and internship opportunities projects provide an unparalleled opportunity to experience the world of SHP and its uses.

### **Digitizing History:**

The newest addition to this encompassing portfolio is “Digitizing History.” This is an innovative undergraduate course that introduces students to the creation and analysis of sources including digital archives and social media. This course provides students with opportunities to acquire cutting edge interpretative skills for presenting History materials online. There are many courses in addition to Digital History that fulfill this "Digital"Component such as Topics in Nature and Culture.

Tel: 520-629-0100 Website: <http://www.thewildlifemuseum.org> [Map](#)

Founded in 1988 by the Safari Club International, and dedicated to increasing knowledge and appreciation of the world's wildlife. Highlights over 400 kinds of mammals, birds, insects, and prehistoric animals from all over the world, most displayed in their natural habitats. Natural history films shown hourly in a 98-seat theater. Some exhibits feature replicas and interactive computers. Outreach and educational programs for children and the general public. Most collections were donated by government agencies, individuals, rehabilitation organizations, and breeding farms.
