What does it take to be an Elder?

This thought-provoking letter was emailed anonymously...

An Elder is thoughtful, strong and also compassionate. An Elder condemns all kinds of violence and abuse, not just those kinds that it is convenient for them to condemn. An Elder stands up for the weak and speaks truth to power.

An Elder is not perfect, but neither is he or she a hypocrite. An Elder recognises that his or her strength comes from a long line of ancestors and their accumulated wisdom. An Elder is always learning.

An Elder is somebody you

can expect a 'fair go' from. An Elder will not attack you when you least expect it. Instead, an Elder will stand up for you when you most need it.

An Elder will definitely not take responsibility for you, but will encourage you to take responsibility for yourself and stand alongside you while you try.

An Elder knows that true dignity comes from within, and that nobody can make you feel inferior without your consent. An Elder is slow to judge, but fierce in his or her defence of the oppressed.

An Elder understands that our history of colonisation has left many of us hurting and

afraid. An Elder will not manipulate our hurt and fear, but will help us to see that we can overcome it together.

An Elder has a vision for a better and more peaceful community. An Elder lives in such a way to make this community happen.

Elders do not hit women or children. Elders do not rape men, women or children. Elders do not tolerate the abuse of any man, woman or child in their community. EVER.

Are you an Elder? Or are you just old?

Our nation was born in GENOCIDE when it embraced the doctrine that the ORIGINAL AMERICAN, the Indian, was an inferior race. Even before there were large numbers of Negroes on our shore, the scar of racial hatred had already disfigured colonial society. From the sixteenth century forward, blood flowed in battles over racial supremacy. We are perhaps the only nation which tried as a matter of nation... [See More](#)

[Study: Rate of Heat Absorption Of Oceans Has Doubled Since 1997](#)

by [jonathanturley](#)

We have another study indicating the rapidly worsening situation due to global climate change. A [study published in the journal Nature Climate Change](#), shows that the amount of man-made heat energy absorbed by the seas has doubled since 1997. That absorption is much higher than anticipated and portends greater threats to ocean life as well as the continuing worsening of intense storms. [Read more of this post](#)

*WASHOE COUNTY PARKS NEWS RELEASE – On March 4 learn how you can help care for Washoe County’s arboretum and public gardens from the roots up when the Wilbur D. May Arboretum offers a **series of horticulture training classes** for volunteers during the month of March.

Classes will cover a variety of volunteer activities from plant and soil care to proper pruning. The first class is at 9:00 a.m. on Tuesday, March 4 and classes are scheduled for every Tuesday, Wednesday and Thursday morning during the month of March. For the complete class schedule, visit www.washoecountyparks.com. Space is limited, so reserve your seat today!

What: May Arboretum Volunteer Training Course

When: First class at 9:00 a.m. on Tuesday, March 4; classes scheduled every Tuesday, Wednesday and Thursday morning in March

Where: [Wilbur D. May Arboretum](#), Rancho San Rafael Regional Park, 1595 N. Sierra Street, Reno

Contact: Horticulturist Bill Carlos at 775-785-4153, Volunteer Coordinator Denise Evans at 775-785-4512 x107

Details: View the complete class schedule online or visit www.washoecountyparks.com. Space is limited so please call to reserve your seat.

The Wilbur D. May Arboretum and Botanical Garden is a living museum and active educational resource, illustrating how plant life adapts and survives in the rugged climate between the Sierra Nevada and Great Basin. The Arboretum was created in 1982 with funding from the Wilbur D. May Foundation. The Arboretum enjoys continued support from the Wilbur D. May Foundation, members of the May Arboretum Society and the community at large.

from dennis M: **On January 21 in 1876 Truckee**

Republican: “Needed Legislation/The present Legislature ought to take some action that will prevent white men from employing Indians to catch trout. Every year the fish business is increasing because more cunning and diabolical contrivances are annually brought into requisition in capturing this trout. The number of fish in the Truckee is decreasing each year . . . Indians are not restricted by law from taking the fish with grab hooks, baskets . . . or in any other manner, and white men, hire the Indians to do this part of the work. Reaping the profits is reserved to the white man. . . . In 1872 the total amount of fish shipped from the Truckee river was 109,812 pounds; in 1873, 150,657 pounds; in 1874, 161,696; making a total in three years of 422,165 pounds. No trout stream in America could stand such a drain for any considerable length of time.”

Should College Be Free?

The cost of higher education is very much on the minds of many voters these days, and it's an issue among politicians from both sides of the aisle.

Hello Family and friends of **Flora James**. At the bidding of Flora's family I am providing a heads up of a memorial service in her honor.

Her physical existence was exhausted Sunday morning. Initial plans are for the services to be held Sunday 01/24/16. Probably early afternoon with the location TBD but most likely in Woodfords. I would prefer to not have my FB blown up but you can share this if you wish. I will update when plans have solidified.

- Peace and Love to us all from Ken Cruz

Jeanette R. Aleck was raised on a ranch in Nixon, NV, and while living on the farm with her parents, brothers and sisters she fostered a love of gardening and nature. She entered into eternal life on Jan. 9, 2016 at her home in Richmond, CA.

Jeanette was born on Dec. 8, 1941 to Albert and Viola Aleck. After graduating from Fernley High School she went on to attend Haskell Institute in Lawrence, KS. She furthered her studies while living in California and earned a degree in political science from the University of California, Berkeley. Always intellectually curious she even spent one summer studying at [Harvard University](#).

Jeanette went on to work for the U.S. Housing and Urban Development in the Public Housing and Native American Programs in San Francisco, CA. She spent 42-years working for HUD and was much admired by her co-workers for her dedication.

She is preceded in death by her parents, brothers, Allen, Ronald, Benson, Raymond and Edward and sister Doris. She is survived by her sisters, Vivian, Delphine, and Jolene, and leaves behind many nieces, nephew and great-nieces and nephews, as well as many friends and relatives.

Jeanette was fearlessly independent and lived life on her own terms. In her free time she enjoyed cooking, sewing, music, art and pow-wows. She was a Cal-sports fan and from 2001-2005 a Gonzaga Men's basketball fan. Throughout her years she was devoted to the life and success of her nieces and nephews. She was particularly supportive of their educational pursuits and career paths. In her younger years she spent the summer months trekking her nieces to Pyramid Lake to swim and hike. Known for having a "green thumb," she created beautiful gardens using her favorite flowers, petunias, bachelors buttons, zienas, marigolds and pinks.

Funeral services were held on Wednesday, Jan. 20, at 2 p.m. at Ross, Burke & Knobel, 2155 Kietzke Lane in Reno. Burial at the Nixon Cemetery. A Celebration of Life Feast was held at St. Mary's Parish Hall following the burial.
