# Bi-State Traditional Ecological Knowledge Summit

## *"Planning from a Broader Perspective"*

**June 28-30, 2016**

**Stewart Indian School Gym, 5500 Snyder Ave., Carson City, NV**

Join us in an open forum to consider how best to incorporate Traditional Ecological Knowledge in the adaptive management of sagebrush and pinyon-juniper ecosystems.

Tribal people and agency resource managers interested in the Bi-State region are encouraged to attend.

A limited number of travel scholarships are available to Tribes.

## **Online Research Tools and Aids - National Archives**

### **Find Records and Information about Records**

Our web site contains answers to many of the preliminary research-related questions you might have.

- To find copies of Federal records on our web site and/or information about the records and their historical context, you will have to look in several places.
- Some sources listed below are databases while others are online guides, publications, and exhibits.

### **Ways to Search Online - National Archives Catalog**

Our National Archives Catalog is the online portal to our records and information about our records. It provides access to data, digitized records, selected series from Access to Archival Databases (AAD), over one million electronic records from the Electronic Records Archives (ERA), all of the web pages from Archives.gov, and all of the web pages from the Presidential Libraries.

[Go to the National Archives Catalog](#)

### **Microfilm Catalog**

This is a searchable database of more than 3,400 numbered microfilm. The described microfilm include those created by or purchased by NARA for researcher use. Determine which rolls of microfilm may be the most relevant for your research at NARA. You can search for microfilm by keyword, microfilm number, Record Group number, and/or location of our nationwide research facilities. Researchers at our research facilities may use this material for free.

[Go to the Microfilm Catalog](#)

### **Access to Archival Databases (AAD)**

AAD is a search engine into some of NARA's holdings of electronic records. There are databases and indexes from more than 30 archival series, including over 350 data files totaling well over 50 million unique records; this number will continue to grow. Search by person, geographic areas, organizations, or dates.

[Go to AAD](#)

### **Archives Library Information Center (ALIC)**

ALIC, part of the National Archives, provides sources for research about American history and government, archival administration, information management, and government documents to archives and records management professionals, the general public, and National Archives staff. Search their [online catalog](#) for holdings of the Archives libraries in Washington, DC and College Park, MD.

[Go to ALIC](#)

Additionally, ALIC's [Reference at Your Desk](#) feature provides quick access to online resources on many diverse subjects.

## **Guide to Federal Records**

Search NARA's holdings of federal records at a very high level, to identify which record groups may have material relevant to your research topics. This includes records that originated in the executive, judicial, and legislative branches.

[Go to the Guide to Federal Records](#)

## **Finding Aids**

### **Filing Manuals**

[Filing manuals](#) outline the filing classification systems used by staff in the Army, Navy, Coast Guard, and various departments and agencies of the federal government.

## **Regional Archives Holdings Guides and Resources**

For links to holdings guides, articles, lists, indexes to files, and other finding aids prepared by the Regions to assist researchers, see our [Regional Archives Online Finding Aids](#) page and visit our [National Archives locations](#) section.

## **NARA Publications**

### [Published research guides, articles, and papers](#)

These include guides, articles, reference papers, inventories, and more, all designed to help prepare you for your research at NARA.

## **New Accessions and Openings**

View our latest [Accessions and Openings](#) for all our locations.

## **Records Digitized by Partners**

Our digitization partners have digitized selected NARA microfilm publications and original records and made them available on their web sites. [Familysearch.org](#) is a free site. [Ancestry.com](#) and [Fold3.com](#) are both subscription services that allow free searches of some or all index terms for each title. Complete access to subscription sites Ancestry.com and Fold3.com is available free of charge in all NARA Research Rooms, including those in our regional archives and Presidential libraries.

[Go to List of Records Digitized by Partners](#)

## **Search by Topic**

## [Research Topics](#)

For many topics, we have included related articles, finding aids, and search tips. Links to online information about selected topics in National Archives records.

## **Search by Federal Government Agency**

Look for the [Federal Government organization](#) that created the records you are interested in.

## **Search by Media Type or Format**

Search for records based on media-type or [format](#) of the records (such as paper documents, photographs, motion picture film or video, audio recordings, maps and drawings, aerial film, microfilm, databases and electronic records)

If you need to see records that are not available on our web site or other web sites, you may need to [contact us](#), [visit us](#), or [hire an independent researcher](#) to continue your research.

[Decide if You Should Visit Us in Person and Plan Your Visit](#)

## Input Needed for State Library and Archives Budget

I am posting this survey so that those who use the State Library and Archives can comment.

"Dear Friends of the State Library and Archives,

As I am preparing my budget for the next session, we are compiling statistics on customer satisfaction with service and the State Library and Archives hours. Our hours were reduced in 2008 to 10 am -2:00 pm because of staff cuts. I am requesting new staff to be open longer. Many of you have voiced your opinions about the short hours, but I need to quantify the responses.

Please feel free to distribute this survey widely.

Please take our customer survey <https://www.surveymonkey.com/r/NSLAPR>

Thanks, Jeffrey M.

[Mustang Makeover](#) **Date: June 18 - June 19** [Reno Livestock Events Center Indoor Arena](#) **This two day event is free to the public on both days.**

### **Saturday, June 18, 2016**

**9:00am:** Extreme Mustang Makeover Preliminary Classes (Conditioning and Handling)

### **Sunday, June 19, 2016:**

**10:00am** - Meet and greet opportunity with the Trainers and their Wild Horses

**1:00pm** - Extreme Mustang Makeover - Freestyle Finals

**2:00pm** - EMM Horse Adoption (Competitive Bidding)

**NOTE:** *if planning on adopting any of the competing Mustangs, you must complete a BLM Adoption Application prior to receiving bidders card - see link at bottom of this page for the Bureau of Land Management requirements and a PDF formatted application*

### **100 DAYS, EXTRAORDINARY RESULTS!**

The Mustang Heritage Foundation is the creator and exclusive producer of the most talked about equine competition in America, the [Extreme Mustang Makeover](#)! For the second year in a row, during the day on the first weekend (June 18 – 19, 2016), the [Extreme Mustang Makeover](#) will be a part of the Reno Rodeo! Adult trainers will have the chance to compete in this wild horse training event for an estimated purse of \$25,000 while being featured during the day in the indoor arena as part of the “Wildest, Richest Rodeo in the West” – the Reno Rodeo!

Through a partnership with the Bureau of Land Management’s Wild Horse and Burro Program, the Mustang Heritage Foundation created the [Extreme Mustang Makeover](#) event in order to recognize and highlight the value of Mustangs through a national training competition. [Extreme Mustang Makeover](#) events give the public a unique opportunity to see the results of wild horses becoming trained mounts. The event showcases the beauty, versatility and trainability of the rugged horses that are housed in

Bureau of Land Management off-range corrals. Trainers compete for cash and prizes while displaying the trainability of American Mustangs in hope of finding a suitable adopter. The Foundation is celebrating the 10th Year of the Extreme Mustang Makeover in 2016 with 10 national event stops!

After being selected to compete at the 2016 Reno Rodeo Extreme Mustang Makeover, all trainers will be picking up an American Mustang on March 4-5, 2016 at the Palomino Valley Wild Horse and Burro Adoption Facility. All competing Mustangs are Geldings, aged 4-6 years and have been virtually untouched by humans. With approximately 100 days to gentle, halter break and saddle train the Mustang before the June competition; trainers must build trust and develop a relationship with the horse to ensure the best performance.

### **THE COMPETITION!**

This two day event is **free** to the public on both Saturday, June 18 and Sunday, June 19, 2016! The event will begin on Saturday morning where horse and rider teams compete in preliminary classes that include evaluating the horse's conditioning and handling ability to maneuver through patterns and trail courses, highlighting the abilities of the Mustang. The Mustangs encounter obstacles similar to those expected during a ride on a nature trail.

After preliminary classes are tallied, the top 10 teams with the highest combined scores will move onto the "freestyle finals" which will begin at 1:00pm on Sunday. Audiences are always amazed at the willingness of the Mustangs, who has only been worked with by a human for approximately 100 days. For the finals, the trainers develop their own routine set to music, props and costumes and have 3.5 minutes to wow the crowd and judges in hoping to win their share of \$25,000!

### **ADOPTION OPPORTUNITY!**

At the conclusion of the 2016 Reno Rodeo Extreme Mustang Makeover all of the participating Mustangs will be available for adoption through a competitive bid process. Through this event, the Bureau of Land Management through their partnership with the Mustang Heritage Foundation are making available to the public, this special opportunity to adopt a true living legend!

For the second year in a row, the American Mustang's great intelligence and willingness to form a bond with human counterparts will be on display at the Reno Rodeo Extreme Mustang Makeover. Be sure to attend this FREE event to see first-hand why the Extreme Mustang Makeover events are the most talked about competitions in the equine world!

Since the first Extreme Mustang Makeover event was held in September 2007, the Mustang Heritage Foundation has facilitated the adoptions of more than 6,200 gentled American Mustangs.
