And be sure to forward this message far and wide.

Women are being beaten on the front lines. This is an old tactic to destroy our fighting spirit and to drive the men into rash behaviour. These State Agent thugs have never seen such courage and self discipline, it scares the crap out of them, armed to the hilt though they are. Unfortunately, this list does not allow images so I am not able to post some of the revealing footage that is out there. You can find it if you look. Spread the message far and wide that the world is watching.
Kittoh

How to Talk About #NoDAPL: A Native Perspective

Kelly Hayes, Truthout: When you talk about Standing Rock, please begin by
acknowledging that this pipeline was redirected from an area where it was most likely to
impact the white residents of Bismarck, North Dakota. In making #NoDAPL purely a
climate justice issue, many people fail to name the fact that we, as Indigenous people,
have a right to defend our water and our lives. [Read the Article](#)

Mark Ruffalo Delivers Solar Panels to Camp Where Thousands Are Fighting the Dakota Access Pipeline

<http://www.ecowatch.com/ruffalo-solar-dakota-access-pipeline-2066031293.html>

Yesterday, the National Guard and State Police raided one of the peaceful resistance camps at Standing Rock.

This frontline camp set up over the weekend along the Dakota Access Pipeline path was cleared
by hundreds of heavily militarized police. For months, peaceful actions along the pipeline route

have been met by a large police presence – **but yesterday's events were different than anything before.**

At least 141 water protectors were arrested after law enforcement used pepper spray, tasers, batons and rubber bullets to forcibly remove those defending sacred land and water. **These brutal police tactics are dehumanizing, uncalled for, and a threat to the First Amendment rights of people protecting their land, water and climate from Big Oil.**

[Call the White House at \(202\) 456-1111 and ask President Obama to send Justice Department observers immediately and stop the Dakota Access Pipeline.](#)

The original camps near the pipeline route – Oceti Sakowin, Sacred Stone, and Red Warrior – are standing strong. While yesterday's events were shocking and painful, the spirit and determination of those of the front lines is unwavering.

If completed, this pipeline would carry toxic fracked oil from North Dakota under the Missouri River, immediately upstream from the Standing Rock Sioux Nation. It is not only a threat to the Native communities nearby, but a disaster for the climate.

[Click here to send a tweet @POTUS urging him to step in and stop Dakota Access.](#)

President Obama has the power to stop this project by denying the pipelines's final federal permit. Over 200 tribes are united in opposition to Dakota Access, more than 300 people have been arrested while peacefully resisting, and numerous leaders from Jesse Jackson to Bernie Sanders have come out in support of the Standing Rock Sioux and the #NoDAPL fight.

We know that the fossil fuel industry has enough coal, oil and gas in their existing mines and wells to push the planet past the red lines of climate safety. Dakota Access is just one symbol of their recklessness -- and the only option left is to stop building any new fossil fuel projects, and fully invest in 100% renewable energy for all.

Water protectors in Standing Rock are defending their rights, their land, and the climate. President Obama should stand with them.

[Tell President Obama to respect the rights of these water protectors and the climate. Call the White House now. In solidarity, Kendall](#)

LEADERS IN ARMED STANDOFF AT OREGON WILDLIFE REFUGE FOUND NOT GUILTY

A jury on Thursday exonerated brothers Ammon and Ryan Bundy and five others of conspiring to impede federal workers from their jobs at the Malheur National Wildlife Refuge.

<http://erj.reviewjournal.com/ct/uz3688753Biz30604331>

Oregon: So, Taking Over A Federal Building Is Okay Now?

The Bundy Brothers and their merry men who stormed Oregon's Malheur National Wildlife Refuge have been [acquitted of felony charges for conspiracy and possession of firearms](#). In case you don't remember, Ammon and Ryan Bundy led a small militia of armed men to break into federal property and occupy it for 41 days, creating a standoff where government employees could not enter their place of work because the militia was patrolling the land with deadly weapons. That is textbook treason, but done in the name of patriotism, so I guess they get a pass. In a statement, the FBI said it was "extremely disappointed in the verdict," a sentiment that was echoed across the country. The seven individuals on trial may have argued that the takeover was a justified act of civil disobedience, but it serves as a slap in the face to both the feds and any American that was ever arrested for protesting peacefully.

Verdict in Oregon Draws Surprise and Questions About Equity

By KIRK JOHNSON, JULIE TURKEWITZ and RICHARD PÉREZ-PEÑA

Outraged by the acquittal of protesters led by Ammon Bundy, some said on social media that nonwhite defendants would not have been treated as favorably.

Anne Susan Thank you FB Family for your support of Justin's goal to get his novel "The State Series" edited and published. It will then be promoted amongst native communities and the world as a motivational tool to encourage young people...our future leaders. Thank You!

Despite the odds, one young writer is passionately chasing his literary dreams.

Partner Story Taco Bell

'I want to become a published author. And there's nothing that's going to stop me.'

Share Tweet August 25, 2016

Full disclosure: We were paid to promote this by Taco Bell as part of a special Upworthy series about the recipients of the Live Más Scholarship. We're really selective about our partnerships, and we'll always be upfront with you about them. Read more about our policy [here](#).

Do you know what it's like to have a dream that you'll stop at nothing to achieve?

Justin Susan does.

When Justin first read a book that transported him to another world, he knew he wanted to re-create that magical feeling for others just like him.

"I want to become a published author. And there's nothing that's going to stop me."

Since then, he's been working relentlessly to make his literary dreams a reality, one chapter at a time.

"When I feel like I'm going to stop, I think about if J.K. Rowling would've stopped," he says with a quiet confidence. "If John Green, Steven Spielberg — all these great people — if they would've stopped. It just keeps me going."

The odds, though, haven't often been in Justin's favor.

When Justin was in the eighth grade, he was reading and writing at a fifth-grade level.

Despite multiple attempts throughout high school, not once was Justin accepted into a college preparatory program. Justin is from the [White Mountain Apache reservation](#), and organizations like College Horizons have reported [the high school graduation rate for Native Americans is about half](#). And of that half, **only 5% immediately go on to four-year colleges.**

But Justin knows what it will take and is determined.

He wakes up around 5:30 a.m. to get his mind going and his blood flowing — [a habit of some of the world's most successful people](#). For him, something as simple as a morning walk can make all the difference when it comes to tackling the day ahead.

The most inspiring part, however, is what drives him every single day.

This magical button delivers Upworthy stories to you on Facebook:

"I want to work hard for it. And not only for, you know, the fame or any of that. I'm doing it out there for the simple inspiration for another kid out there just like me, who may not have the right path in life. And hopefully, my characters, my words, can help them just get a little closer to that right direction. And that is the biggest reason why I do it."

It's no wonder Justin stood out from the crowd and was eventually awarded the Live Más Scholarship from Taco Bell.

"Hope ... it gave me hope that my dreams are possible."

Those were Justin's words when he first found out he had won.

You see, Taco Bell is celebrating our young innovators, creators, and dreamers — the next generation of students whose skills go beyond the usual athletics and academics. Despite the challenges of the path ahead, these young men and women aren't afraid to dream big and do what they love. They're going after what they want in life and are doing it with determination and truckloads of heart.

Watch Justin talk about his inspirational journey: <https://www.livemassscholarship.com/#home>

Honoring Day of the Dead

[Samuel Harry Legal Defense Fund](#)

On October 10, 2016, Samuel Harry, his wife Summer, and 1-year old baby boy, Reign, were participating in a peaceful protest to advocate for Indigenous Peoples...
samuelharry.com

Family and Friends, we are seeking your help. As you know, our family was involved in the Indigenous People's Day Celebration that took place in downtown Reno. As the celebration ended with a photo under the Reno Arch, it took a sudden, tragic twist as a result of a Hate Crime. An official request for an investigation by the Department of Justice has been submitted. My son Sam was charged with Simple Battery, a more severe charge than that of the 18 year old driver. The driver, who purposely drove through our friends and family, ran over five people. Our friend, Kitty Colbert, a 21 year Veteran, received a broken pelvis and other fractures. She is an amazing warrior and woman.

We are establishing a Legal Defense Fund for my son Sam. The link and his story follow. We truly appreciate the support and words we've received the past three weeks, including donation pledges. We appreciate any donation or help, even if its just sharing the page and of course, your prayers.

Pesha u, we love you all. Carolyn Harry
