NATIVE AMERICANS RESPOND TO #YESDAPL

Hundreds in Los Angeles Protest Climate Change, North Dakota Pipeline

[Read the Article at Reuters](#)

[Bucky Harjo](#) If we really want to stop this DAPL, it's going to take more than just Water Protectors, Peaceful Prayers, and Unity, Unity is the KEY! ALL TRIBAL LEADERS need to come together on this RIGHT NOW, time to STAND with US, We need LEADERS from many organizations to STAND, WE need THE Religions of THE WORLD, to Stand With Standing Rock, we need elected officials to STAND, UNITY, we need to show the world that this is time to change, to come together as one. Don't wait, don't hesitate, if there was ever a time in the history of mankind to come together, now is that time! NOW IS THE TIME!!!! What I forgot to mention as well, We need VET's of all War's, there are some but we need more to STAND!!!!

Many people say they want to go but have either no way to get there or lack of funds. Get organized! Round up your friends, educate them about Standing Rock, your churches, educate them get a donation drive going, ORGANIZE! MNI WICONI!

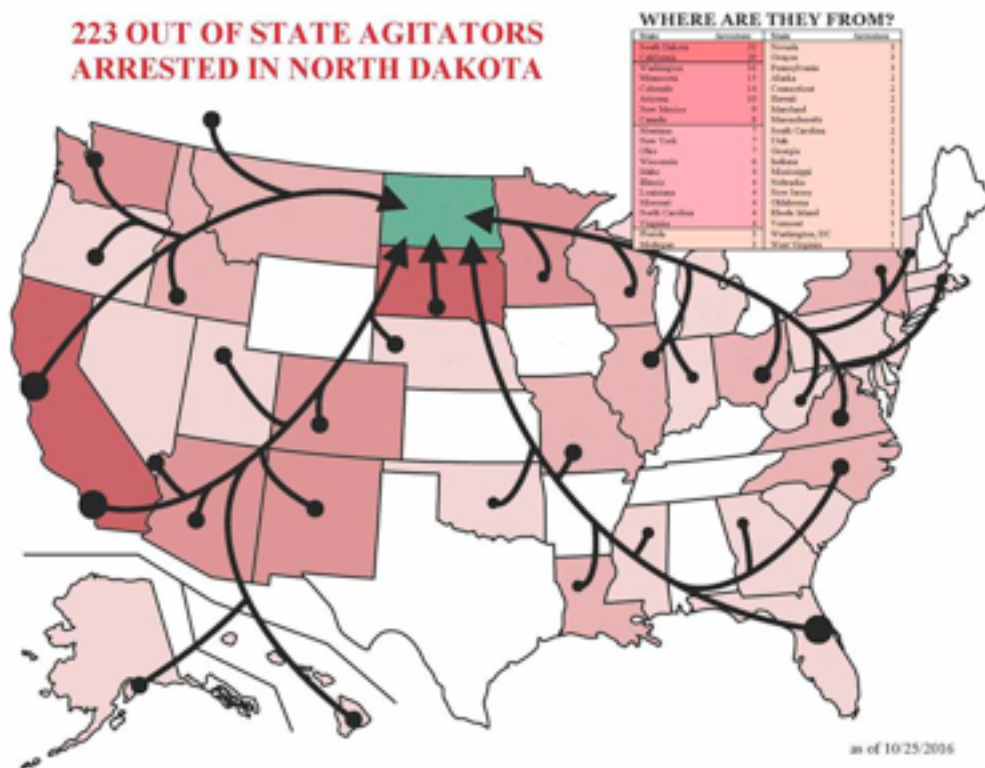

Morton County Sheriff's Department

Check this out... More than 90% of the protesters arrested for their unlawful actions while protesting the construction of the DAPL are from out of state.

Bucky Harjo shared

C'mon Texas! This the only time I'm rootin for ya! Get up there and get arrested! What? This is wrong. I know plenty of Nevadans who have been arrested. Or are we even a state?

Ed note: Good example of why words are important: “out of state agitators” as opposed to “concerned Americans demonstrate support” or “come to investigate and learn for themselves”particularly when it is obvious the information here is incorrect/ incomplete.

Ruffalo also confirmed Tuesday night during a press conference in Ft. Yates that Leonardo DiCaprio will also be coming to North Dakota to join the Standing Rock Sioux Tribe in opposition of the Dakota Access Pipeline.

The Atlantic Coast Pipeline Could Be the East Coast's Dakota Access Pipeline

s.e. smith, Care2: While the Dakota Access pipeline is making headlines, there's a storm brewing in the East. The power company Dominion wants to lay down nearly 600 miles of natural gas pipeline across West Virginia, Virginia and North Carolina to service energy companies across the region. But the Atlantic Coast Pipeline is facing significant opposition. [Read the Article](#)

FINAL, UPDATED BIA MODEL INDIAN JUVENILE CODE:

Ensures rights of Native youth who enter juvenile system are respected and protected.

Bureau of Indian Affairs (BIA) has published the final updated version of its 2016 Model Indian Juvenile Code, which was originally issued in 1988 - almost 30 years ago. The 2016 Model Indian Juvenile Code helps federally recognized tribes create their own codes that focus on juvenile matters and specifically address issues affecting American Indian youth arrested for alcohol- and/or drug-related offenses in Indian Country. The effort to update the 1988 original

complements the Gen-I and Tiwahe initiatives. Tiwahe, which means “family” in the Lakota language, promotes a comprehensive, integrated and community-based approach to support child welfare, family stability and strengthening tribal communities as a whole. Oct. 24 FY 2017 SPECIES RECOVERY GRANTS TO TRIBES

The National Marine Fisheries Service (NMFS) is authorized to provide Federal assistance to tribes to support conservation programs for marine and anadromous species under its jurisdiction. This grant assistance can be used to support conservation of endangered, threatened, and candidate or proposed species, as well as post-delisting monitoring of recovered species. Proposals that address the recovery of one of the following critically endangered species are encouraged this year and will be considered a priority for funding: Atlantic salmon, white abalone, Cook Inlet beluga whales, Hawaiian monk seals, Pacific leatherback sea turtles, and southern resident killer whales. Funded activities may include development and implementation of management plans, scientific research, and public education and outreach; proposals should address priority actions identified in an Endangered Species Act (ESA) Recovery Plan or address a NMFS-identified regional priority or need. Only federally recognized tribes and organizations of federally recognized tribes, such as the Alaska Eskimo Whaling Commission, that have delegated authority to represent a federally recognized tribe on matters relating to ESA listed, candidate, or proposed species, are eligible to apply. Proposals focusing on listed, candidate, or proposed species of Pacific salmon or steelhead will not be considered for funding under this grant program; such projects may be supported through the Pacific Coastal Salmon Recovery Fund. For more info. visit HYPERLINK "http://azcia.gov/ianmp/inc/rdr.asp?13437__1692151542__http://azcia.gov/ianmp/inc/rdr.asp?14040__1681913582__http://www.grants.gov/web/grants/view-opportunity.html?oppId=286803"

Nov. 15 Champions for Change (Center for Native American Youth)

The Aspen Institute is now accepting nominations and applications for its Champions for Change leadership development program. Tribal leaders, teachers, coaches, school administrators, parents, Native youth, and others can nominate a young Native leader (ages 14–22) who is making a positive impact in their tribal or urban Indian community. Youth can also submit their own applications without a nomination. CNAY will announce the 2017 Champions this December and bring them to Washington, D.C., in February 2017 for a series of events with tribal leaders, policymakers, and other key stakeholders to be recognized for their leadership efforts. [EJSCREEN User Impact Survey:](#)

Only 2 weeks left to share your story with us!

The Office of Environmental Justice at the Environmental Protection Agency (EPA) launched the [EJSCREEN User Impact Survey](#) a month ago to collect information on the diverse ways people are using EJSCREEN to support their analysis of environmental justice concerns. Survey responses will also help EPA identify opportunities to further develop and improve this tool. So far, we have received an incredible breadth of responses from users, but with your help, we can keep this momentum going. **There are only 2 weeks left** to enter your submission for an opportunity to be featured on EPA's EJSCREEN website!

To learn more about the survey, read [The 'So What?' of EJSCREEN](#) by Hallah Elbeleidy on EPA's [Environmental Justice in Action Blog](#).

[Jeff Carlton](#)

<http://sierraclub.self-help-sites.com/gbgroup/sill.htm>

As we mourn the loss of one environmental hero, Marge Sill, let us seriously take heed of the words of another national treasure - Bill McKibben. Personal decarbonization efforts alone will not save us.

We must build up our movement and work at mobilizing others - at building up our political power. Take strength from the bountiful unconditional love Marge showered each of us with and let's renew our efforts and calls to action to meet head on this climate change crisis. We must be smart and we must be willing to make some compromises, too. We can't let the ideal be the enemy of the good. We just don't have the time.

[Bill McKibben: The Question I Get Asked the Most](#)

"My answer to this question has changed over the years, as the science of global warming has shifted. I find, in fact, that I'm now saying ...
