Three years ago I took off my Navy uniform and told myself that I would never put it back on. I decided I wanted to live peacefully, and do what I could to allow the same for those around me. But now the day has come to put that kit back on, and head to Cannonball, North Dakota, and stand between the water protectors and the police, working illegally to protect the Energy Transfer Partners drilling of the Missouri River. Watching events unfold around the Dakota Access Pipeline has been mortifying and humiliating, and I would be lying if I said I wasn't scared.

If it sounds like I'm looking for public approval, or an ego boost, or just a bunch of likes and comments; I am. The notion of putting my uniform back on, just to face off with other uniformed Americans looking to do me harm is honestly terrifying. The actions of the police from around the country who have answered the call of ETP, and other private interests like them, to stop the people from demonstrating or disturbing progress is terrible. But the media and public silence on the gross violation of human rights, treaty rights, and our environment is what truly disturbs me.

I'm going to Cannonball with the group, Veterans Stand for Standing Rock, from December 4-7, and expect to be one of hundreds if not over a thousand veterans coming from all over the country to stand up to these storm trooper cowards. If you're a veteran, please join us, I don't have to remind you of the oath we took, and what it means to face a foreign and a domestic enemy. If you're not a vet, you're still welcome. Either way, our communities need to be sending more people to North Dakota to resist this blatant insult to a modern world.

If you can't make it, donate! Veterans Stand for Standing Rock has a gofundme link for those of us vets who are broke but want to help. Also, <http://sacredstonecamp.org>, the camp itself housing a huge group of Native American tribes and other humans from the US and abroad, is in serious need of financial and material assets. You can help.

Please help.

"In the end, we will not remember the words of our enemies, but the silence of our friends."
Dr. King

On November 23, the **Native American Rights Fund (NARF)** sent a letter calling on the **Attorney General of the United States** to intervene on behalf of the Water Protectors to put an end to the violence being perpetrated against them. NARF further requested a full investigation of the Morton County Sheriff's Office for their acts of violence and tactics used against the Water Protectors as well as requesting criminal charges be brought for any and all violations of federal criminal civil rights laws. [Click here to read full letter.](#)

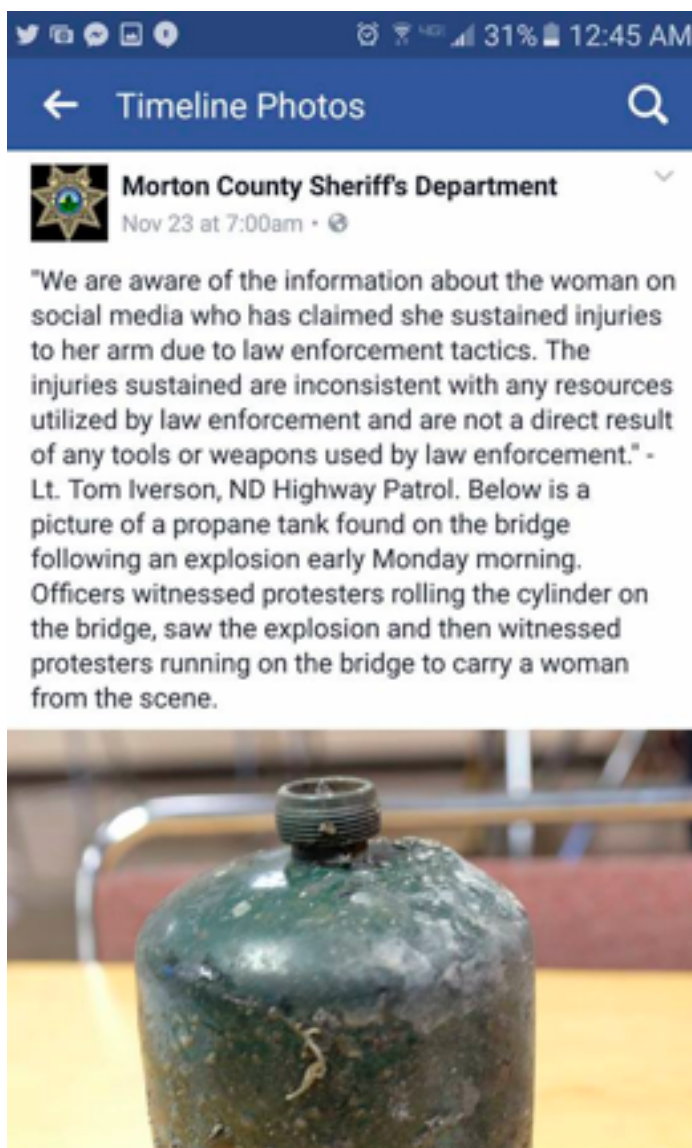

[Kandi Mossett's photo.](#)

Unconscionable BS. Man they can lie, publicly. Please understand These lies from ND police are nothing new. They've done it, this blatantly forever. The people have had this kind of justice handed to them a lot. :(What is new here is this time, the whole world is watching and aware of their unethical practices.

[Andrea Edwards](#) Well I'm glad her doctors removed and saved the shrapnel from her arm. Pieces of their concussion grenades (I think that's what it's called). Morton county won't be able to lie about that in court.

[Julia Hammett](#) Morton County Sheriff's FB page is offline. Is that because so many of us reported them for promoting hate speech? Or did they surrender to our growing FB Free Speech zone? Either way, and for however long, let's take it as a win!

[Jennifer Eisele](#) Here is a better article on the eviction notice. Camp OS is safe for

[Julia Hammett](#) I had to admit it, but we need some big name attorneys to call for a TRO on them. They can't get a permit because of the retrictions. Remember they get a workaround compliments the Halliburton loophole.

[Julia Hammett](#) Jennifer, people are talking about a deadline for the pipeline. Do you know anything about that?

[Jennifer Eisele](#) There are commitments to Shareholders for pipeline "in-service dates" There are also expiration dates on some of the Conditional Use Permits by some counties. I'm more interested in the water rights permitting for hydrostatic testing the pipe on completion. They bought water rights to do that but I think that would have time constraints. As you will recall - Ruby Pipeline had to do a Secondary EIS after the Pipeline was in-service because of the violations with the Hydrostatic Testing.

[Kitty Colbert](#) They have "witnesses that claim"...we have video and actual evidence.

I am so grateful to have been able to finally make it to the Oceti Sakowin camp this past Friday! It was a great experience, and I wish I could've stayed longer. There were many Natives and more non-Natives than I thought would be there. The camp was bigger than I had imagined and everyone was so helpful and volunteering to help chop wood, sort clothes, build shelter, etc. The camp was clean and it seemed to me that most people moved with a purpose. Everyone was kind and I felt safe, even after the sun went down. I loved seeing all the tipis and yurts set up. What an amazing experience to see so many tribes and non-Native people come together and support one worthy cause. Definitely one I will treasure throughout my lifetime. I stand for water! I stand for treaty rights being upheld! I stand for integrity, compassion, and humanity! I stand for the Standing Rock Sioux!

Solar in Your Community Challenge: Informational Webinar **Thursday, December 1, 2016 2PM - 3PM EST**

Register Today

The SunShot Initiative announced the [Solar in Your Community Challenge](#), a new prize competition that aims to improve solar electricity access to underserved communities across the country. Offering \$5 million in cash prizes and technical assistance (TA) over 18 months, the Challenge encourages communities to work together to create replicable, innovative business and financial models that expand solar to low- and moderate-income households. Because not all Americans own their rooftop, the Challenge aims to spur the development of inclusive solutions-like community solar-to help even more Americans go solar.

To provide information on how the Challenge works and how you can apply to participate, the SunShot Initiative will be hosting an informational webinar for communities with environmental justice concerns. [Register Here](#)

After you register, you will receive a link with the information on how to access the Adobe Connect webinar room.

Applications for teams and experts are due **March 17, 2017**. Team applications include a three-page written application, [a short video](#), and a short public-facing description, that describes your project or program's impact.

If you have questions regarding this webinar, please contact [Simone Walter](#).

I am so thankful for you, our community. We *all* are.

Here at The New York Public Library, every day we see the best of people: children and adults working hard to improve themselves, community members coming together to learn and think, writers building great works of art and knowledge, and the generosity of supporters like you who give from the heart to make the Library's work possible.

You inspire us.

We are thankful to watch our patrons come into their library branch with a passion to *learn* and *share knowledge*. Let us show you what we mean: [watch this caring mother describe how her library helps her gain the skills she needs to teach her daughter. It will warm your heart, seriously.](#)

Being in a library—among people who choose to surround themselves with books and

learning —inspires hope.

Thank you so much for being part of our community. I am grateful to be there with you.
Sincerely, Shayla L. Titley, The New York Public Library

Call for Student Climate Justice Abstracts -- Extended Submission Deadline

Join the Educate, Motivate, Innovate Workshop at the National Environmental Justice Conference and Training Program

March 8-10, 2017 in Washington, DC

The Educate, Motivate and Innovate (EMI) Climate Justice Initiative is seeking abstracts on student projects that address resiliency, adaptation, and mitigation. Students should emphasize the relationships between climate change and the following: public health, cultural and traditional practices, economic development, and environmental justice communities. The EMI Committee will use these abstracts to select students to participate in the EMI Workshop at the National Environmental Justice Conference and Training Program.

The Call for Abstracts is open to all undergraduate and graduate students attending Minority-Serving Institutions, including: Historically Black Colleges and Universities, Tribal Colleges and Universities, Hispanic Serving Institutions, and Asian American and Native American Pacific Islander Serving Institutions. Travel transportation and hotel costs will be provided to students selected to participate in the EMI Workshop.

For more information on the EMI Workshop and the Call for Abstracts, please visit [Building the Next Generation of Climate Justice Leaders](#) by Joanna Mounce Stancil.

EXTENDED Deadline for Abstract Submission: December 31, 2016 at 11:00PM ET **Notification of Acceptance:** January 17, 2017

Submit professor reviewed abstracts, including student and professor contact information and no more than 2 pages double-spaced related to topics of interest stated above to [Joanna Mounce Stancil](#), USDA Forest Service.

PS In case you missed these
