WARRANTY DEED

THIS INDENTURE, made this 20th day of September, 2016, between DAVID A. MEYER AND BRENDA K. MEYER, as husband and wife, with an address of 3285 67th Street, Flasher, North Dakota 58535, GRANTOR, whether one or more, and DAKOTA ACCESS, LLC, A DELAWARE LIMITED LIABILITY COMPANY, GRANTEE, whether one or more, whose post office address is 1300 Main Street, Houston, Texas 77002.

WITNESSETH, for and in consideration of the sum of One Hundred Dollars (\$100.00) GRANTOR does hereby grant to the GRANTEE all of the following real property lying and being in the County of Morton, State of North Dakota, and described as follows, to-wit:

See Exhibit A attached hereto (the "Real Property").

Subject to and excepting therefrom all the oil, gas and gravel in and under and that may be produced from the Real Property, together with the right of ingress and egress into and therefrom, for the purpose of exploring for, developing, removing, storing, handling, transporting and marketing the same; provided such ingress and egress does not interfere with GRANTEE's intended use of the Real Property including, without limitation, GRANTEE's pipeline. Additionally, GRANTOR shall compensate GRANTEE for any and all damages to the real and personal property owned by GRANTEE incurred as a result of GRANTOR's exercise of any of rights hereunder, including without limitation, gravel mining operations conducted on the Real Property subsequent to the Closing Date. Notwithstanding any provision in this Warranty Deed to the contrary, GRANTOR's exercise of any rights under this reservation, including, without limitation, the mining of surface or subsurface gravel, within one thousand five hundred and twenty five (1,525) feet of either side of the centerline of the pipeline (to be constructed and installed on the Real Property) or within one thousand and five hundred (1,500) feet of either side of GRANTEE's pipeline corridor easement. The exploration or removal of any minerals not currently under production or exploration or removal operations as of September 1, 2016 are strictly prohibited, until all construction activities are concluded on the property associated with the Dakota Access Pipeline.

And the GRANTOR for himself, his heirs, executors and administrators, does covenant with the GRANTEE that he is well seized in fee of the land and premises aforesaid and has good right to sell and convey the same in manner and form aforesaid;

Also known as the Chukchansi Yokut, the Chukchansi homeland is primarily in the San Joaquin Valley area of central California.

Please help share these two excellent guest editorials from important voices in the Native American community on Bears Ears.

The first -- from Willie Grayeyes, chairman of Utah Dine Bikeyah -- explains how UT Rep Rob Bishop's Public Lands Initiative has ignored grassroots Native Americans living in Utah's San Juan County and why a presidential monument proclamation is needed to stop the desecration of sacred lands and bring healing and protection. The second -- from members of the Ute Business Committee -- explains why the Ute Indian Tribe opposes the Public Lands Initiative.

Give these important pieces a read! And then please share them widely.

POST ON FACEBOOK: <http://www.deseretnews.com/article/865662706/Bears-Ears-Monument-request-seeks-to-preserve-aboriginal-lands.html>

Sample comments:

Willie Grayeyes, chairman of Utah Diné Bikéyah, writes in Sunday's Deseret News: ". . . the Public Lands Initiative failed to live up to its promise both as a collaborative process and as a step forward. That is why tribes have asked the president to create the Bears Ears National Monument through the Antiquities Act." #ProtectBearsEarsNow!

Willie Grayeyes, chairman of Utah Diné Bikéyah, writes in Sunday's Deseret News: "The Bears Ears National Monument proposal offers a holistic, culturally informed, and economically sustainable plan for managing San Juan County's public lands. It creates an opportunity for our communities to thrive economically through celebrating our deep connection to the Bears Ears landscape." #ProtectBearsEarsNow

Willie Grayeyes, chairman of Utah Diné Bikéyah: "We approach the Public Lands Initiative in good faith. . . Unfortunately our voices were ignored. . . That is why tribes have asked the president to create the Bears Ears National Monument through the Antiquities Act." #ProtectBearsEarsNow! #StopPLI

POST ON FACEBOOK: <http://www.sltrib.com/opinion/4358069-155/op-ed-pli-would-be-the-first>

Sample comments:

Ute Indian Tribe editorial on UT Rep Rob Bishop's Public Lands Initiative: "The actions of Bishop & Chaffetz would seek to divest the Ute Indian Tribe of our ancestral homelands and rekindle failed policies of tribal land dispossession that have had a devastating & lasting impact upon tribal nations for the past century." #StopPLI

Ute Indian Tribe editorial on UT Rep Rob Bishop's Public Lands Initiative: "The Ute Indian Tribe strongly opposes H.R. 5780 due to the devastating effect it would have on our reservation and precedent that the bill sets for federal Indian policy. . . This modern day Indian land grab cannot be allowed to stand." #StopPLI

Thanks for helping to spread the word!

National Environmental Justice Advisory Council (NEJAC) Public Face-to-Face and Meeting and Teleconference Option

Wednesday and Thursday, October 12-13, 2016

The National Environmental Justice Advisory Council will have a public meeting with a teleconference option on Wednesday and Thursday, October 12-13, 2016 from 9:00 a.m. to 5:00 p.m. Eastern Time (ET) each day. The primary topics of discussion will focus on this administration's accomplishments, challenges, and the future of furthering environmental justice throughout the work at EPA.

Public comment will be held on Wednesday, October 12, 2016 starting at 6:00 p.m. Eastern Time. The purpose of the public comment sessions is to establish a forum for open dialogue and to allow members of the public the opportunity to speak directly to the NEJAC about environmental justice issues, ideas, and concerns. Written comments can be submitted for the record. Please note:

- Written comments received by 11:59 p.m. ET on Wednesday, October 05, 2016, will be included in the materials distributed to the NEJAC prior to the teleconference meeting.
- Written comments received after that time will be provided to the NEJAC as time allows
- All written comments should be sent to [Karen Martin](#).

You can read the NEJAC public comment guidelines [here](#).

Registration is recommended for the face-to-face meeting. You can register [here](#).

- Pre-registration is required for the teleconference option. You can register [here](#).
- Registration closes at 11:59 p.m. Eastern Time on Wednesday, October 05, 2016
- Deadline for public comment period sign-up 11:59 p.m. Eastern Time on Wednesday, October 05, 2016

For those attending the face-to-face meeting, there is a group hotel rate at the Renaissance Arlington Capital View Hotel. Book your group rate for EPA Arlington Room Block.

Hotel Information: Renaissance Arlington Capital View Hotel
(2800 S Potomac Ave Arlington, VA 22202)

Start date: 10/11/16 End date: 10/14/16 Last day to book: 9/20/16

Rate: \$222.00 per night *(environmental, not economic justice!)*

Coming Soon: Roads That Produce Solar Energy

Until now, capturing solar energy generally has meant placing panels on roofs or, at the industrial level, in large open fields. [inc.com](#)

ILLEGAL TIRE TRACKS MAR DEATH VALLEY DRY LAKE FAMOUS FOR MYSTERIOUS MOVING ROCKS

The National Park Service is trying to track down a motorist who defaced a remote dry lake bed in Death Valley National Park famous for its mysterious moving stones. Racetrack Playa is strictly off limits to motor vehicles, but that didn't stop one unidentified joyrider from carving about 10 miles of looping tire tracks into the lake bed sometime late last month.

\$12 million Amount ExxonMobil will pay in a settlement with Montana and the U.S. government

over a 2011 oil spill from one of its pipelines. The spill occurred in the Yellowstone River, where it contaminated a 137-kilometer stretch of water. *Reuters*

A Native American environmental leader, a U.S. congresswoman who has championed clean energy, and the man who guided the National Park Service through its 100th birthday celebration were among those honored at the 2016 Sierra Club Awards ceremony in Oakland, California, on September 10. [Read about all the winners and what they did to earn their awards.](#)

Water and sewer systems designed and installed decades ago are not compatible with changing climate realities. It's true for big canals and treatment plants, but also for systems operating at much smaller scale.

This week Circle of Blue [reports on new research that explores what climate change means for the backyard sanitation units known as septic systems.](#)

America's Spreading Septic Threat

Failing septic systems produce disease outbreaks, algae blooms, and ecosystem damage.

Septic System Pollution Contributes to Disease Outbreaks

More research and funding is needed to help understand the severity.

Why Ayers Rock Rocks - 7 reasons to visit Australia's red center

PHOTO BY [DARREN DAVIS](#) VIA FLICKR

Some describe it as that giant rock in middle of woop woop (woop woop: an Aussie term meaning "far away"). To others it's holy ground. You're going to call it all that and more. Ayers Rock, whose official name is Uluru/Ayers Rock, is where adventure meets wonder. "Discovered" by explorers in 1873, and named after the chief secretary of South Australia at the time, Uluru has been a sacred spot to indigenous tribes long before that. Today, Uluru/Ayers Rock is a UNESCO World Heritage Site both for its geological importance and its cultural heritage. Here, seven reasons why this red rock rocks. [READ MORE](#)
