## **These 80 Programs Would Lose Federal Funding Under Trump's Proposed Budget** By [David Ingold](#) [Chloe Whiteaker](#), [Michael Keller](#) and [Hannah Recht](#) March 16, 2017

U.S. President Donald Trump's first budget proposal includes massive cuts across most of the federal government. The Environmental Protection Agency and the Department of Agriculture face unprecedented discretionary funding cuts in excess of 25 percent, as Trump attempts to boost the military and national security.

**Education** Source: Office of Management and Budget

\*Some percentages differ from administration figures because change is calculated against fiscal 2016 levels, the last year for which the government was fully funded. The current fiscal 2017 stopgap spending measure runs through April 28.

Trump's budget also proposes eliminating discretionary funding altogether for at least 19 agencies and 61 other programs. Plans for new NASA missions, climate change research, aid for low-income families and funding for commercial flights to rural airports would all be on the chopping block. **Trump says many of these programs are inefficient or duplicative. All this could change; Trump will deliver a final budget in May and Congress would have to approve the cuts—something they have often resisted in the past.**

***And in Nevada:***

**SB 20 was introduced to remove the need for teachers to learn about the US and Nevada Constitutions.**

Clark County School District wants the bill because it considers those classes as burden to new teachers they recruit from out-of-state. I did a quick survey and found the requirements for state and US Constitution for teachers in California, Arizona, Texas, Florida and Wyoming. I didn't dig too deep.

You can follow **SB 20** here <https://www.leg.state.nv.us/App/NELIS/REL/79th2017/Bill/4628/Overview>. You can even watch the testimony here Events: [View Archived Meeting](#)

AN ACT relating to educational personnel; removing the requirement that examinations for the initial licensing of teachers and other educational personnel include the laws of Nevada relating to schools, the Constitution of the United States and the Constitution of the State of Nevada; repealing provisions requiring teachers and other educational personnel to show knowledge of the Constitution of the United States and the Constitution of the State of Nevada; and providing other matters properly relating thereto.

Officially I have to be neutral on this because the Governor is at this time, but I feel I should let you know about it.
