It's funny that we think of libraries as quiet demure places where we are shushed by dusty, bun-balancing, bespectacled women. The truth is libraries are raucous clubhouses for free speech, controversy and community. Librarians have stood up to the Patriot Act, sat down with noisy toddlers and reached out to illiterate adults. Libraries can never be shushed.

Paula Poundstone

### **Native Voice Features PowWows.com Writer Corinne Oestreich!**

Congratulations to PowWows.com contributor Corinne Oestreich for being featured in an episode of Native Voice! Native Voice TV has been around since 2004, bringing us great weekly interviews from Northern California, focusing on the culture of Native Americans and Indigenous People of the Americas.

"Our guest in this episode of Native Voice TV is multi-talented Corinne Oestreich. She is a Jingle Dress Dancer, Professional Photographer, Theatrical Actor-Dancer, School Teacher but she primarily works for Pow Wows.com as a photographer and a writer."  
Watch the full episode below!

**Tulalip Rapper – "Native and Proud of It"**

To his family, he's known as Kisar Jones-Fryberg, but in the hip-hop scene, he goes by Komplex Kai. This Native rapper reps the Tulalip Tribes to the fullest, all while throwing down deep lyrics over a dope beat. Some have even referred to him as the Native American

### **Paddle to Protect: A 250-Mile Canoe Journey to #STOPLINE3**

Inspired by what was started at Standing Rock, a group of Indigenous youth fighting the Enbridge Line 3 pipeline will undertake a 250-mile canoe journey across northern Minnesota to stand for the cleanest lakes, the manoomin (wild rice) beds and the 1855 treaty territories of the Ojibwe people.

How can you help?? Donations or volunteer help welcome! See below flyer for details or visit <https://www.stopline3.org/paddletoprotect> [READ MORE](#)

**Nuns build chapel in proposed pipeline's path** An open-air chapel set up by nuns to block construction of a natural gas pipeline in Pennsylvania will be dedicated Sunday on the pipeline's proposed path. cnn.com

## Update on NATHPO's 2017 Annual Conference

More information on the 19th National Tribal Preservation Conference has been posted on the NATHPO website, including a preliminary list of presenters. Additional presenters will be added, as confirmed.

Highlights of the 2017 conference include two presentations from the U.S. Government Accountability Office (GAO) on their work:

1. Ongoing Audit of: *Federal Agencies' Tribal Consultation Practices*
2. Ongoing Audit of the: *Looting and Trafficking of Native American Artifacts*

Some important deadlines:

- July 16, 2017 (Sunday): Cut-off date for discounted, conference room rate. Note: August is a busy time of year for the Pala Resort and you are urged to make a room reservation at your earliest convenience.
- July 31st (Monday): Pre-registration conference rate ends. Conference rates increase after this date.
- August 1st (Tuesday): Initial cut-off date for workshops and field trip registration. After this date, availability will be on site.

We look forward to seeing you in Pala, California, in August

**Nevada Terawatt Facility**

**Training Students in the Field of High-Energy-Density Science**

with

**Dr. Aaron Covington**

The Ramada, Tuesday, July 18, 2017, 9:00 a.m.

The Nevada Terawatt Facility (NTF) performs high quality research in the area of high-energy-density (HED) physics, the study of matter under extreme conditions of temperature and density. It is one of the Energy Department's National Nuclear Security Administration's (NNSA) Science Centers as part of the nuclear stockpile stewardship programs.

Located at the former Stead AFB, the NTF was established by UNR in 2000. The primary focus of the NTF is to conduct research that focuses on the study and behavior of matter subject to conditions of extreme temperature and density. This rapidly developing field explores the "4th state of matter", called plasma, under conditions similar to those occurring in the interiors of stars, nuclear fusion reactors, and lightning bolts. Dr. Covington will discuss the science behind the work of the NTF, as well as the very advanced pulsed-power generator and Leopard Laser that are two of the highly specialized tools needed to conduct these experiments.

Dr. Aaron Covington is the Director of the Terawatt Facility and is a professor in the Department of Physics at UNR.

***Please join us for what will be a very interesting discussion. A full breakfast will be served (\$15 Members, \$25 Non-Members, and \$10 for students with ID and military personnel in uniform; free for WWII Veterans). We recommend that you arrive by 8:30 to enjoy some breakfast, coffee and conversation.***

***Please RSVP by clicking [HERE](#) . For your convenience, we accept cash, check and credit card payments for both the breakfast and membership fees.***

**The National Wildlife Federation's 13th annual Great American Campout** features 5,000 new reasons to pledge to campout this year! If we reach our goal of 150,000 campers, The National Wildlife Federation will donate 5,000 native trees to its Trees for Wildlife program.

Trees are not only beautiful but constantly work to make the Earth a healthier planet. Wherever trees are established, wildlife are sure to follow. Animals are able to enjoy fruits and foraging opportunities from mature trees and use trees to seek shade and shelter without traveling away from their food source. Many animals also use trees for resting, nesting and places from which they hunt and capture prey.

Your pledge to Campout will directly impact wildlife through the newly planted trees wildlife depend on!

Thank you, KTVN and Andi Guevara for the spotlight on this tool used by VOA and our community to help our homeless neighbors leave poverty behind for good.

### Clarity Cards Help Area Residents Who Are Homeless, Live in Poverty

We take a closer look at a centralized system that provides services to those living in poverty in northern Nevada [ktvn.com](http://ktvn.com)

[https://nvenergy.az1.qualtrics.com/jfe/form/SV\\_29b5cCoxYxsFJkN](https://nvenergy.az1.qualtrics.com/jfe/form/SV_29b5cCoxYxsFJkN)

At NV Energy, the Power of Good is Always On. We are excited to launch the first-ever NV Energy Foundation Power of Good Giveaway, which celebrates the work of Nevada's nonprofit organizations - **and we need your input.**

More than 150 nonprofits have entered for a chance to win \$20,000 statewide--\$10,000 in southern Nevada and \$10,000 in northern Nevada. These organizations provide vital services and programming for youth in our service territory. From July 10 through July 21 at 11:59 PDT, you can vote once per day for the nonprofit organization you would like to win the giveaway.

#### **Cast Your Vote**

Return each day until July 21 to vote again to tell us what cause you care about the most.

On July 31 we will announce the two winners. Don't wait, vote now!

Sincerely, NV Energy Foundation
