Art Bite: Do Prehistoric Aliens Paint Their Caves?

February 24 at 12:00 pm - 1:00 pm

[Nevada Museum of Art](#), 160 W Liberty St

Reno, NV 89501 United States

There is no scientific evidence for the existence of aliens, but astronomers are increasingly finding the universe to be a habitable place. If extraterrestrial beings do exist, how would their artwork necessarily differ from our own? Dan Ruby will speculate on possible answers through his own experience in art making and astronomy. Fleischmann Planetarium Director

Funding and Technical Assistance Opportunities

- 1. Coastal Resilience Grants FY 2017, National Oceanic and Atmospheric Administration**
- 2. Tribal Heritage Grants, National Park Service**
- 3. Agricultural Marketing Service Grants, United States Department of Agriculture**
- 4. Regional Conservation Partnership Program, United States Department of Agriculture**

1. Coastal Resilience Grants FY 2017, National Oceanic and Atmospheric Administration

Details at <https://www.coast.noaa.gov/resilience-grant/>

[Applications close March 15, 2017.](#)

[Funding amount: \\$100,000 to \\$2,000,000](#)

The objective of the NOAA Coastal Resilience Grants program, jointly administered by NOAA's National Ocean Service and National Marine Fisheries Service, is to implement projects that build resilient U.S. coastal communities, economies and ecosystems.

The NOAA Coastal Resilience Grants Program will support two categories of activities: 1) Strengthening Coastal Communities: activities that improve capacity of multiple coastal jurisdictions (states, counties, municipalities, territories and tribes) to prepare and plan for, absorb impacts of, recover from, and/or adapt to extreme weather events and climate-related hazards; or 2) Habitat Restoration: activities that restore habitat to strengthen the resilience of coastal ecosystems and decrease the vulnerability of coastal communities to extreme weather events and climate-related hazards. Eligible applicants are regional organizations, institutions of higher education, non-profit and for-profit organizations, U.S. territories and

states, Native American tribes, and local governments as defined at 2 C.F.R. 200.64, which includes counties, municipalities, and cities.

2. Tribal Heritage Grants, National Park Service

Details at <http://www.grants.gov/web/grants/view-opportunity.html?oppId=291199/>

Applications close March 27, 2017. Funding amount: \$5,000 to \$60,000

The National Historic Preservation Act of 1966 authorizes grants to Federally recognized Indian tribes for cultural and historic preservation projects. These grants assist Indian Tribes, Alaskan Natives, and Native Hawaiian Organizations in protecting and promoting their unique cultural heritage and traditions. Non-federal matching share is not required, but preference will be given to applications that show community commitment through non-federal match and partnership collaboration. Grants may fund a broad range of planning, development, and research projects for cultural resources including: survey, inventory, oral histories, interpretation, education, architectural services, historic structure reports, preservation plans, and bricks and mortar repair.

3. Agricultural Marketing Service Grants, United States Department of Agriculture

Details at <https://www.ams.usda.gov/press-release/usda-announces-27-million-grants-available-support-local-food-sector>

Applications close March 27, 2017.

The U.S. Department of Agriculture's Agricultural Marketing Service announces the availability of \$27 million in grants to fund innovative projects designed to strengthen market opportunities for local and regional food producers and businesses. The Local Food Promotion Program offers grant funds with a 25% match to support the development and expansion of local and regional food business enterprises to increase domestic consumption of, and access to, locally and regionally produced agricultural products, and to develop new market opportunities for farm and ranch operations serving local markets.

The purpose of the Farmers Market Promotion Program is to increase domestic consumption of, and access to, locally and regionally produced agricultural products, and to develop new market opportunities for farm and ranch operations serving local markets by developing, improving, expanding, and providing outreach, training, and technical assistance to, or assisting in the development, improvement, and expansion of, domestic farmers markets, roadside stands, community-supported agriculture programs, agritourism activities, and other direct producer-to-consumer market opportunities. The Federal-State Marketing Improvement

Program provides matching funds to State Departments of Agriculture, State agricultural experiment stations, and other appropriate State agencies to assist in exploring new market opportunities for U.S. food and agricultural products, and to encourage research and innovation aimed at improving the efficiency and performance of the marketing system.

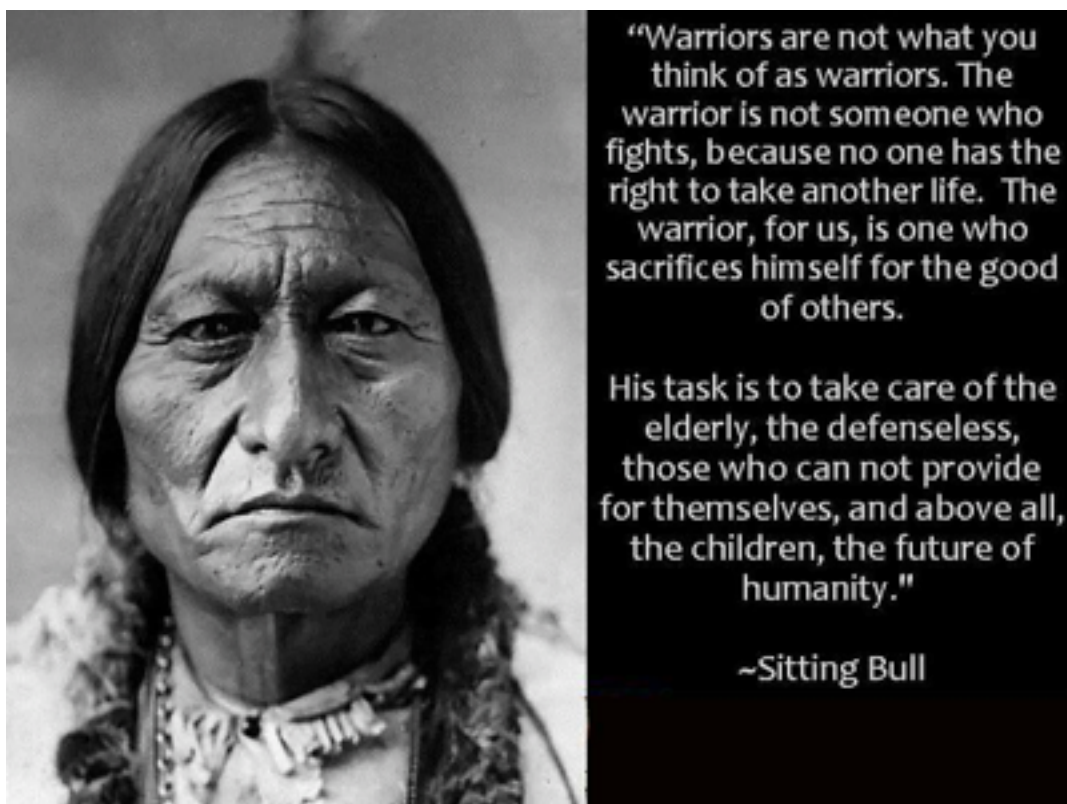

4. Regional Conservation Partnership Program, United States Department of Agriculture

Details at <https://www.nrcs.usda.gov/wps/portal/nrcs/main/national/programs/farmland/rcpp/>

Pre-applications due April 21, 2017.

Funding amount: Up to \$10,000,000

Through this fourth Regional Conservation Partnership Program Announcement for Program Funding, NRCS will award up to \$252 million dollars to locally driven, public-private partnerships that improve the nation's water quality, combat drought, enhance soil health, support wildlife habitat and protect agricultural viability. Through Regional Conservation Partnership Program, NRCS works with partners to provide a combination of financial and technical assistance to help producers implement conservation practices. Applications will be accepted from all 50 States, the Caribbean Area (Puerto Rico and U.S. Virgin Islands), and U.S. territories in the Pacific Island Areas (Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands). Applicants must match or exceed the federal award with private or local funds. The NRCS national office will host multiple webinars about the pre-application and full project application processes.

“Intelligence plus character — that is the goal of true education.”
Martin Luther King Jr.

Libraries have never been more important than they are today.

In this time of unparalleled change, libraries offer an inclusive and diverse place where people can come together, share knowledge, and strengthen our great city. Libraries are truly spaces where all are welcome.

[News](#) Constitutional issues: Legislators revisit forgotten teaching requirements.

Nevada Legislature

S.B. 143—Harris, Feb. 13.

Summary—Requires each public school in a school district to establish and maintain a school library. (BDR 34-59) Fiscal Note: Effect on Local Government: May have Fiscal Impact. Effect on the State: Yes.

Feb. 13—Prefiled. Read first time. Referred to Committee on Education. To printer.

Feb. 14—From printer. To committee.

Summary—Proposes to revise provisions relating to the preservation and promotion of the arts and museums in this State. (BDR 33-267) Fiscal Note: Effect on Local Government: May have Fiscal Impact. Effect on the State: Yes.

Feb. 13—Prefiled. Read first time. Referred to Committee on Natural Resources. To printer.

S.B. 188—Parks, Cannizzaro and Ford, Feb. 13.

Summary—Revises provisions prohibiting certain discriminatory acts. (BDR 18-106) Fiscal Note: Effect on Local Government: May have Fiscal Impact. Effect on the State: Yes.

Feb. 13—Prefiled. Read first time. Referred to Committee on Government Affairs. To printer.

A.B. 196—Assemblymen McCurdy II, Diaz, Thompson, Flores, Brooks, Jauregui, Joiner, and Miller; Senators Ratti and Segerblom.

Summary—Provides for an endorsement that a teacher, administrator or other educational personnel may obtain in culturally responsive educational leadership. (BDR 34-659)

Fiscal Note—Effect on Local Government: No. Effect on the State: Yes.

Feb. 13—Prefiled pursuant to JSR 14.2.1(d). Read first time. Referred to Committee on Education. To printer.

A.J.R. 4—Assemblywoman Swank; Senator Segerblom.

Summary—Requests the National Research Council of the National Academy of Sciences to conduct an independent scientific and economic analysis of the current management practices of the Colorado River, the impact of these practices on water security, flood protection and biodiversity recovery, and alternative management options, including draining Lake Powell and decommissioning and destroying the Glen Canyon Dam. (BDR R-101)

Fiscal Note—Effect on Local Government: No. Effect on the State: No.

Feb. 13—Prefiled pursuant to JSR 14.2.1(d). Read first time. Referred to Committee on Natural Resources, Agriculture, and Mining. To printer.

Feb. 14—From printer. To committee.
