Oil have not won. While this preliminary ruling is disappointing, it's not surprising. The bigger legal battle is ahead — we stand strong.” —Dave Archambault, chairman of the Standing Rock Sioux, after [a federal court denied a request by the Cheyenne River Sioux to stop the Dakota Access oil pipeline.](#)

The pipeline, which has largely been opposed over concerns about water, could soon begin operation. (*Bloomberg*)

From The Nation. Richard Kreitner quoting I. F. Stone on the failure of journalists (but it applies to all of us) to publicize the plight of European Jews during the holocaust: "It is our part in this which is tragic. The essence of tragedy is not the doing of evil by evil men but the doing of evil by good men, out of weakness, indecision, sloth, inability to act in accordance with what they know to be right...But to feel that your friends and allies are wishy-washy folk who mean what they say but haven't got the gumption to live up to it must brew a poisonous despair"

Mike Gamms

Not all women deserve to be celebrated. Take for example this Fox News "reporter" who showed up to the Native Nations tipi camp in Washington DC and demanded to enter a tipi during a sacred prayer ceremony with her camera. When she was asked to wait out of respect, she threw a fit and started complaining that this is public property and she can go where ever she wants. Then she started interviewing people, asking gotcha questions and implying that we are all paid protesters. Eventually she interviewed me and asked me if I was "an Indian." I scoffed at her word choice and said no I am not Native American. She said "Indian isn't a derogatory term because "they" use it." I explained to her that you wouldn't call a black person the "n word" just because some black people use it. She continued to debate with me and eventually says "Well how do you know I'm not Native American??" And I said point blank, "Because you're a Fox News reporter." She stopped asking me questions after that.

follows

Standing Rock Sioux Tribe and Yakama Nation sign proclamation calling upon the United States to revoke the “Doctrine of Christian Discovery” during march in D.C.

WASHINGTON D.C.—Members of Native Nations from across the country marched in Washington, D.C. today to raise awareness about the challenges of protecting their natural resources. The heightened awareness of Standing Rock Sioux Tribe’s fight for clean water has equally brought awareness about the flawed system of dispute resolution utilized by the judicial branch of the United States that Native Nations must navigate in their pursuit of protecting their natural resources. During the march, Chairman Dave Archambault II of the Standing Rock Sioux Tribe and Chairman JoDe Goudy of the Yakama Nation read the proclamation calling to question how historical documents of domination and dehumanization have historically—and in present day—been used against Native Nations and peoples.

The proclamation calls upon Pope Francis to revoke the historical Roman Catholic Church Papal Bulls of Dum Diversas (1452), Romanus Pontifex (1455), and Inter Caetera (1493), questioning their unholy orders of domination and dehumanization, and the manner in which these historical papal decrees laid the foundation of modern day Federal Indian Law. The historical papal decrees also resulted in the “Doctrine of Discovery,” utilized not only in the formation, but the current function of the U.S. government.

“The Dakota Access Pipeline crisis is a direct result of the United States government using the religious underpinnings of U.S. federal law against our Nations,” Chairman Goudy stated. “These religious underpinnings are traced to Vatican papal decrees from the fifteenth century that called for the subjugation of non-Christian nations, and they are being utilized against our Native Nations and Peoples to this day. This is the precedent that is relied upon for the continuous failed attempts to protect our resources in the federal courts.”

The proclamation highlights the extreme contradiction of the separation of church and state in dealing with disputes among Native Nations.

“The United States government claims the ‘right of Christian Discoverer’ to dominate our Nations, lands, and waters,” Chairman Archambault stated. “This claimed ‘right’ is stated in U.S. Supreme Court decisions—starting with *Johnson v. McIntosh* in 1823, and reaffirmed by *Tee-Hit-Ton v. U.S.* in 1955, *City of Sherrill, N.Y. v. Oneida Indian Nation of New York* in 2005, and many others.”

“In order for us to take the steps necessary to assure our own future, we have to understand historically what has happened to us and understand what is currently happening to us,” Archambault continued. “Once we understand the cause we can make the change.”

#TakeTheMeeting // President Trump must meet with tribal leaders to hear why it's critical that the US government respect tribal rights. This administration must work with us.

#ConsentNotConsultation // Tribal interests cannot continue to be marginalized in favor of the interests of corporations and other governments. Consultation is not enough—we must require consent.

#NativeNationsRise // The Standing Rock movement is bigger than one tribe. It has evolved into a powerful global phenomenon highlighting the necessity to respect Indigenous Nations and their right to protect their homelands, environment and future generations We are asking our Native relatives from across Turtle Island to rise with us.

The Standing Rock Sioux Tribe and Indigenous grassroots leaders call on our allies across the United States and around the world to peacefully March on Washington DC. We ask that you rise in solidarity with the Indigenous peoples of the world whose rights protect Unci Maka (Grandmother Earth) for the future generations of all.

Chris LaMarr with Teresa Dixon and 9 others.

I spoke today at a college about what it is like to be a Native. One topic I spoke about is the constant pain we face because of death. Death impacts our Native Communities at a much deeper level. It's because every native life is precious. But also because our communities are so small that each death impacts 100's of people. Further more because our people have faced genocide at the hands of the US government. Our history with the US is one of death and violence. I spoke today about how Michael and Kyle have greatly impacted what I do. I told the college staff that we as Native people are constantly at war and constantly in survival mode and that needs to be recognized.

I just wrote this rhyme in thoughts of Newti and all of those of have past. I hope somehow this helps ease the pain. I don't forget and I will do my best to make sure others understand what it like to be a Native.

Time space irrelevant
Tell me what be heaven sent
One day you a blessing
Next day sumptin be missing
Life too short death too long
Got me ripping this same old song
Out of the bros that die too soon
Rez heaven won't u make more room
For the ogs the Rez dogz warrior pride and the native mob
Trails of tears y'all left too soon
Wish Rez heaven had no room
See we need you here
We miss you here
Won't cry but you know will drop a tear
Pour some beer and reminisce
Of days old a savage fist
Props to those who came before
Mad respect we can't ignore
Never forget, so rhymes I spit
But how long can we take this shit
Native life precious life
Roll the dice, got me thinking twice
About why we live and how we die
And why we cry and should we even try
Odds against at gods request?
May I clear the air
we need
a wish and prayer
Not death despair
Not pain and fear

I pray to you lord - can you hear?
Much less death much more life
My put rhyme on my life, on my fam, on my life, on my fam, on my life

We all know there is a long way to go, like training press to say “protectors” instead of “protesters”, but here are some tools for your campaign to get started! The world is watching.

Sunshine Week It's Your Right to Know March 12-18, 2017

Join ASNE and the Reporters Committee in the annual nationwide celebration of access to public information and what it means for you and your community. Find all the free resources you need to get started [right here](#).

[How to Get Involved](#)

Calendar of Events

Across the country, Sunshine Week is marked by panel discussions, workshops and other events about using and understanding the latest developments in freedom of information resources. View [our calendar of events](#) to see what's in store for 2017!

Success Stories

Sunshine Week celebrated its 10th anniversary in 2015, and we've made a lot of gains in open government thanks to your work. **Please share your experiences and success stories** with sunshineweek@asne.org and we'll post some of them on the website.

Reporting Package

Major news organizations are working on the 2017 special reporting package, free for anyone to use during Sunshine Week. Content will be available after March 8, embargoed for publication Sunday, March 12. [Click here](#) to read the budget, and plan ahead!

More Sunshine

Sunshine Week lasts seven days, but it's up to all of us to keep the sun shining on government all year. **Share your great FOIA stories**, new laws and other efforts on behalf of open government on Twitter using [#SunshineWeek](#), or on our [Facebook](#) page.

@SunshineWeek

Sunshine Week is brought to you by:

the American Society of News Editors and Reporters Committee for Freedom of the Press

With generous support from John S. and James L. Knight Foundation and The Gridiron Club and Foundation
