This is the sunset at the North Pole with the moon at its closest point last week. A scene you will probably never get to see in person, so take a moment and enjoy... And, you also see the sun below the moon . An amazing photo and not one easily duplicated. You may want To pass it on to others so they can enjoy

While exercising outside this afternoon I looked up to the skies and saw this amazing sight which I never seen before.

The clouds look like feathers and each one had a rainbow 🌈 painted across. It's a great sign of goodness to come I will believe.

“When we love, we always strive to become better than we are. When we strive to become better than we are, everything around us becomes better too.”

— Paulo Coelho, *The Alchemist*

THIS IS AN ALCOHOL AND DRUG FREE EVENT

“

Never be afraid to raise your voice for honesty, and truth, and compassion against injustice and lying and greed. If people all over the world would do this, it would change the earth.

**WILLIAM FAULKNER**
