Keystone XL Pipeline Ruling: Trump Administration Must Release Documents

Georgina Gustin, Inside Climate News

Gustin writes: "A federal judge in Montana has ordered the Trump administration to release documents it relied on to approve construction of the Keystone XL pipeline last year, a development that pipeline opponents believe could stymie the controversial project."

"[T]he values to which people cling most stubbornly under inappropriate conditions are those values that were previously the source of their greatest triumphs."

"The metaphor is so obvious. Easter Island isolated in the Pacific Ocean — once the island got into trouble, there was no way they could get free. There was no other people from whom they could get help. In the same way that we on Planet Earth, if we ruin our own [world], we won't be able to get help."

Both quotes are from Jared Diamond, Collapse: How Societies Choose to Fail or Succeed

An old coal-fired plant in North Dakota is trying to go green.

The Minnkota Power Cooperative's Milton R. Young station got a \$6 million grant from the U.S. Department of Energy to design a carbon capture model that would reduce the plant's carbon emissions by 90 percent.

The project is one of seven funded by the Energy Department's new \$44 million Design and Testing of Carbon Capture Technologies program.

The 40-year-old Minnkota station has two coal-powered units that together produce roughly 700,000 kilowatts of energy. Its larger unit is slated to get retrofitted with carbon capture technology — when CO2 is sucked from the air and stored underground so it doesn't enter the atmosphere.

But the project will take <u>more than a year to design</u>, and at the end of that period, Minnkota Power might decide that the project isn't economically feasible.

It's a very real possibility. The woe-begotten Kemper Power plant, the nation's <u>first "clean coal"</u> <u>carbon capture facility</u>, stopped work on clean coal last summer and reported billions of dollars in losses.

Then again, the Trump administration passed <u>a budget</u> this month that contains enormous incentives for clean coal tech, and <u>researchers say</u> carbon capture could be key to keeping global temperatures under the 2 degrees C limit.

Queen Elizabeth has no patience for plastic.

Her Majesty <u>officially banned</u> plastic straws and bottles from all cafés, dining halls, and catered events on royal estates.

Like many of us, she was influenced by the soothing voice of David Attenborough. Unlike almost all of us, that happened while she filmed part of a conservation documentary with the venerable naturalist, where we imagine they discussed crumpets, ocean plastics, and being 91 years old.

"Across the organization, the Royal Household is committed to reducing its environmental impact," a Buckingham Palace spokesperson said. The ban is one of a few big green moves of late by Her Majesty, including plans to add solar panels and biogas generator to Buckingham Palace.

Of the 300 million tons of plastic produced every year, more than 8 million are estimated to end up in the ocean. Brits alone use well over 7 billion disposable plastic water bottles a year, recycling fewer than half of them (and recycling plastic comes with a whole other set of problems). If that rate remains unchanged, there will be more plastic by weight than fish in the ocean by 2050.

You may not have known that the Queen drinks <u>four alcoholic beverages a day</u>, but now you know she will be consuming them <u>sans straw</u>.

Alberta man offers to share his 'stolen land' with a First Nations family CBC NewsJoel Holmberg says he has long acknowledged that Canada is "really all stolen land" — even his own property that he has worked hard for, and still has about another 20 years until it's paid off.

The Biggest Little Birthday - Reno 150

On May 9, 2018, the City of Reno will partner with the Reno Aces Baseball Club to host "The Biggest Little Birthday" Reno 150 celebration at Greater Nevada Field! The event is free and open to the public, but attendees will need tickets to enter the stadium. Tickets will be available around April 1, 2018 through our sponsor organizations.

Schedule of events:

- 4:00 p.m. Reno 150 celebration begins outside of Greater Nevada Field.
- Learn about Reno's history, people and events.
- Visit booths showcasing historical and cultural organizations.
- There will be music, dancing and a large display of birthday cupcakes.
- 5 p.m. Gates open for Reno Aces game (must have tickets).
- 6:35 p.m. Game starts.

Visit <u>Reno.Gov/Reno150</u> for complete details and a list of upcoming Reno 150 events or to host your own Reno 150 event.

While this appears in the following list, this internship is too important to go unnoticed (yes, I know some of you are not reading every entry). For those interested

in the IRA (Indian Reorganization Act) in particular, this is a fabulous opportunity. sdc

Roosevelt Archival Internships \$1,400 April 01, 2018

• The Franklin D. Roosevelt Library and the Franklin and Eleanor Roosevelt Institute (FERI) offer Roosevelt Archival Internships to college and graduate level students. Preference may be given to students majoring in history, political science, archival, library, or computer/information science. Research skills, basic computer skills, familiarity with the Internet, and knowledge of Windows, Word Perfect, and Access database software are particularly valuable. Some familiarity with the history of the Franklin D. Roosevelt presidency (1933-1945) is helpful.

Roosevelt interns work at the FDR Library as part of a team of other interns and staff professionals to organize and automate archival materials, make indices, finding aids, and databases, digitize documents and photographs, and assist with other archival and museum projects. The work schedule is Monday-Friday, 9:00-5:00 PM.

- Internships can last six or seven weeks, and must take place during the summer break (mid-May through the end of August). The FDR Library is in Hyde Park, New York, a rural/suburban town 80 miles north of New York City. There may be an opportunity for one or two interns to work on the New Deal Network Web site project in New York City.
- Interns receive a stipend of \$1,200-1,400 (\$200 per week). The internships are funded by the William R. Emerson Archival Internship Fund and by the FDRL/FERI Roosevelt Internship Program, both of which are managed by FERI.
- For more information or to apply, please visit the scholarship provider's website. Raymond Teichman, Franklin D. Roosevelt Library, 511 Albany Post Road Hyde Park, NY 12538 library@roosevelt.nara.gov tel: 914-229-8114 fax: 914-229-0872

Celebrate International Women's Day this Thursday, March 8 Several events in the Reno area

IWD at UNR QUAD

The University of Nevada is organizing a walk on the quad, and invites the public to come any time between 7 and 8am to walk the quad with others to celebrate International Women's Day. Great music provided!

IWD at Microsoft

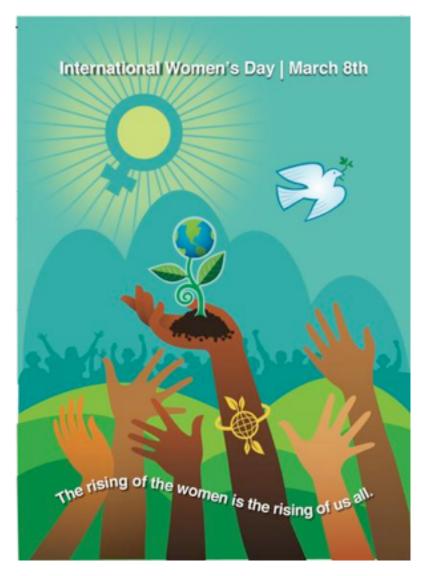

The Women in Operations group at Microsoft Reno, will host a panel discussion and reception to celebrate the 2018

International Women's Day, Thursday, March 8 from 3:30 p.m. to 5:30 p.m. at the Microsoft Reno Café (6840 Sierra Center Parkway, Building C). The theme for the 2018 International Women's Day event is #PressforProgress. Now more than ever, there's a strong call-to-action to press forward and progress gender parity. A strong call to #PressforProgress. A call to motivate and unite friends. colleagues and whole communities to think, act and be gender inclusive.

IWD at the Unitarian Fellowship

Join various international and immigrant groups for a celebration of women at the Unitarian Universalist Fellowship of Northern Nevada (780 Del Monte Lane) from 5-7pm. The event will feature inspirational speeches, cultural performances, food and community resources.

All events are free and open to the public.

Indian reception of President Chester A. Arthur at Fort Washakie (1883).

~~~~~~~~

The following is a good example of why/how some "historical" events do need to be re-researched and rewritten.

http://www.apcrp.org/WICKENBURG\_Massacre/ Wickenburg\_Massacre\_Text\_071108.htm November 5, 2008

#### Research Project - Update

A vast amount of research has been underway for the past two years by various coordinators within APCRP, in an attempt to clarify history. Evidence has come to light that the actual victims of the massacre were never loaded on wagons and returned to Wickenburg nor were they ever buried in Wickenburg. APCRP has identified all six victims graves of the persons interred in the individual graves at the massacre site. Buried where they apparently died as there is no formal alignment of the graves rather a random configuration. It is becoming apparent in the old days it was a custom to bury people exactly where they died. Expedience was the primary consideration.

Now for a new twist in the Massacre. It is well known Mollie Shepard and William Kruger escaped with their lives that fateful day. Although wounded, they were interviewed in San Francisco some time later. How is it that Mollie Shepard's grave is here making the grave victims now number seven? History often creates more questions than it answers. Many theories abound as to the way the massacre happened, who performed the massacre ranging from Indians, whites/mexican's dressed as Indians, it was a set up by Kruger and Shepard. Between them it is arguably stated they carried \$20,000 to \$30,000 a considerable wealth in those days. No mention of the money has ever been mentioned other that a few dollars were trying to be exchanged by some Indians at a date following the massacre. Very likely these dollars were the money the victims had on their person when they were massacred and the Indians cleaned out their pockets.

After APCRP extensive research it is our belief that in an attempt to avoid being killed themselves, Kruger and Shepard dispatched the valuables they were carrying to lighten their load. Possibly under a tree root, rock or brush along the creek as they headed west toward Culling's Well in their escape route. It has been arguably stated that Kruger was carrying military funds and the massacre may have been a cover-up to make off with the funds. We are not here to stand in judgment of who had what, rather they hid the valuables as they were escaping simply to lighten their loads. Reasoning you would not take time to bury this treasure with people chasing you, trying to kill you.

That said, and given they had time to gain their strength after the massacre. Kruger and Shepard traveled on horseback back to the massacre site avoiding main roads. Once they were in the vicinity of the Massacre Site and they recovered their treasure, a dispute occurred between Kruger and Shepard and she was stabbed, died and was buried at the site. It is also believed others were involved that knew Mollie and they killed her not Kruger. Attached is the actual graves of the victims, we believe at the Wickenburg Massacre Site.

# IMLS Director Dr. Kathryn K. Matthew's Statement on the President's Prosposed FY 2019 Budget

The president released a budget request to Congress for FY 2019 that proposes funding for the orderly closure of the Institute of Museum and Library Services. Read More

# Who Should Be Armed in Florida Schools? Not Teachers, Lawmakers Say. But Maybe Librarians.

By PATRICIA MAZZEI

After a debate on the State Senate floor on Monday, Republican legislative leaders backed off on arming most teachers, but voted to allow others in schools to carry guns.

## Washington Governor Signs First State Net Neutrality Bill By CECILIA KANG

The law is the most sweeping state action so far against new federal rules that strip away regulations on how high-speed internet providers handle digital data.

## Sonja Bata, Whose Museum of Shoes Tells a Story, Dies at 91

By BONNIE WERTHEIM

The Bata Shoe Museum, which she founded in Toronto, contains thousands of items spanning 4,500 years of footwear history.

## NMA's First Thursday Combines Landscapes, Aboriginal Art By Samuel Sheridan

On the first Thursday of every month, from 5 to 7 p.m, the Nevada Museum of Art hosts an evening of drinks, live entertainment, and a chance to see current exhibits as a gift to museum members and the larger community. Admission is free for members and \$10 for the general public.

The most recent First Thursday event was March 1 and celebrated the opening of two new exhibits dedicated to the works of Hans Meyer-Kassel and contemporary artists from Australia's Aboriginal demographic and culture.

Meyer-Kassel's exhibit, "Artist of Nevada," pays tribute to a German painter who immigrated to the United States in 1921 after witnessing the horrors of World War I in his homeland. The exhibit features paintings created to show his feelings for the war, as well as his scenic landscapes of northern Nevada (including the Carson Valley and Pyramid Lake). Personal mementos, such as his glasses and paintbrushes, are also on display. Jack Bacon and Guy Clifton, the publisher and author of the exhibit's complementary book, respectively, were present to sign copies, along with curator Ann Wolfe.

Next door, a 5-minute looping documentary on Aboriginal culture serves as the gateway to <u>"Marking the Infinite,"</u> an exhibit marking the American debut of several of its contributing artists, all of whom have Aboriginal roots. Inside, their larrakit poles and paintings discuss varying themes, ranging from celestial bodies that communicate Aboriginals' questions of existence to a showcase of Aboriginal traditions and ceremonies.

The highlight of First Thursday is a networking and cocktail session inside the fourth-floor Sky Room, where alcoholic beverages are sold and information booths encourage attendees to join local memberships. This month, singer-songwriter Mark Mackay performed, and next month will feature local band Kingfinger.
