Clean Diesel Funding Assistance Program FY 2019, EPA
Applications due March 6, 2019
[For more information, click here!](#)

EPA is soliciting applications nationwide for projects that achieve significant reductions in diesel emissions, particularly from fleets operating at or servicing goods movement facilities located in areas designated as having poor air quality. Further, priority for funding will be given to projects which result in outcomes that benefit affected communities, those that engage affected communities with respect to the design and performance of the project, and those which can demonstrate the ability to promote and continue efforts to reduce emissions after the project has ended.

Eligible applicants include regional, state, local or tribal agencies, or port authorities with jurisdiction over transportation or air quality. Nonprofit organizations may apply if they provide pollution reduction or educational services to diesel fleet owners or have, as their principal purpose, the promotion of transportation or air quality.

EPA anticipates awarding approximately \$40 million in Diesel Emission Reduction Program (DERA) grant funding to eligible applicants, subject to the availability of funds. The maximum amount of federal funding that may be requested per application varies by Region.

- Region 1 (Connecticut, Massachusetts, Maine, New Hampshire, Rhode Island, Vermont) will accept proposals requesting up to \$1,000,000 in grant funds.
- Region 2 (New Jersey, New York, Puerto Rico, U.S. Virgin Islands) will accept proposals requesting up to \$2,500,000 in grant funds.
- Region 3 (Delaware, District of Columbia, Maryland, Pennsylvania, Virginia, West Virginia) will accept proposals requesting up to \$2,500,000 in grant funds.
- Region 4 (Alabama, Georgia, Florida, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee) will accept proposals requesting up to \$2,000,000 in grant funds.
- Region 5 (Illinois, Indiana, Michigan, Minnesota, Ohio, Wisconsin) will accept proposals requesting up to \$3,000,000 in grant funds.
- Region 6 (Arkansas, Louisiana, New Mexico, Oklahoma, Texas) will accept proposals requesting up to \$2,500,000 in grant funds.
- Region 7 (Iowa, Kansas, Missouri, Nebraska) will accept proposals requesting up to \$1,500,000 in grant funds.
- Region 8 (Colorado, Montana, North Dakota, South Dakota, Utah, Wyoming) will accept proposals requesting up to \$2,400,000 in grant funds.
- Region 9 (Arizona, California, Hawaii, Nevada, Guam, American Samoa, Northern Mariana Islands) will accept proposals requesting up to \$4,000,000 in grant funds.
- Region 10 (Alaska, Idaho, Oregon, Washington) will accept proposals requesting up to \$1,000,000 in grant funds.

EPA Environmental Justice Small Grants Amendment

Date change for EJ Small Grants Spanish Pre-Application Assistance Call

An amended version of the Environmental Justice Small Grants 2019 Request for Proposals (RFP) has been posted to the [FY2019 EJ Small Grants RFP webpage](#) and to www.Grants.gov. This amendment highlights the following change:

- **Date switch for Spanish Pre-application Assistance Call** - The date of the Spanish Pre-application Assistance Call has been switched from Wednesday, January 16, 2019 to **Wednesday, January 23, 2019**. The time of the Spanish call is from 2:00 – 3:30 PM (ET). The call scheduled for January 16th will now be in English and will be from 4:00 – 5:30 PM (ET).

This amendment supersedes all previous versions of the RFP. See new pre-application assistance call schedule below:

Informational Pre-Application Assistance Calls

Date and Time (Eastern Time)

- Wednesday, January 16, 2019 - 4:00 p.m. - 5:30 p.m.
- Wednesday, January 23, 2019 (en Espanol) - 2:00 p.m. - 3:30 p.m.
- Thursday January 31, 2019 - 7:00 p.m. - 8:30 p.m.

Click the link below to go directly to the EJSJG program website to access the full RFP including instructions on applying through Grants.gov: [FY2019 EJ Small Grants RFP webpage](#)

Is my organization eligible?

Eligible entities for this opportunity are as follows:

- incorporated non-profit organizations -including, but not limited to, environmental justice networks, faith based organizations and those affiliated with religious institutions
- federally recognized tribal governments-including Alaska Native Villages; OR
- tribal organizations

If your organization is NOT eligible, we encourage partnering with eligible entities on an EJSJG project. See the RFP for more information.

Applications Now Accepted for the President’s Environmental Youth Award

Applications are due February 1, 2019

[For more information, click here!](#)

The application period is now open for the 2018 President's Environmental Youth Award (PEYA) program. The PEYA program recognizes outstanding environmental

stewardship projects by K-12 youth, promoting awareness of our nation's natural resources and encouraging positive community involvement. Winners of this year's awards will be invited to a ceremony in Washington, D.C. in mid-2019, and have their project mentioned on EPA's website.

EPA will select up to two winners in each of EPA's 10 Regions – one regional winner for Grades K-5 and one regional winner for Grades 6-12. All student projects must be sponsored by at least one adult over the age of 21.

The application and eligibility information are available at: <https://www.epa.gov/education/presidents-environmental-youth-award>

For questions, please contact PEYA@epa.gov

Citizen Scientists Wanted to Photograph King Tides

By Jean Yamaura, Santa Barbara Independent, 12/31/18

The Coastal Commission is recruiting citizen scientists to take part in its California King Tides Project by taking photographs of the seashore. The highest tides of the year, or king tides, are due on January 20-21, 2019. Caused by the alignment of sun, moon, and Earth, the exceptional tides could give a picture of California's shoreline under the effects of sea-level rise, estimated by the City of Santa Barbara to be more than six feet by 2100 if progress continues to stall on changing human greenhouse gas production.

Fly over the snowy Sierra Nevada in what may be the best view you'll see this winter

By John Hannon, Modesto Bee, 1/2/19

Fly over the Sierra Nevada - first Donner Lake area, then along the Truckee River between Truckee and Lake Tahoe, and finally along the South Yuba River at Hampshire Rocks Campground. The snow in this area is key to California's water supply.

[Yvette Butterworth My Home is California](#)

All the beautiful photos of Mt. Shasta this week inspired me, so I thought I'd add my photo from 30,000 feet. Happy New Year!

Native Seeds/SEARCH appreciates you for being a part of our community. During this season of giving, we want you to know how much [*your support makes a difference.*](#)

When you support Native Seeds/SEARCH, you make sure that sustainable farmers like

Johnny Ortiz have access to the right seed. This year he grew Sonoran White Wheat, Pima Club Wheat, and Hopi Black Dye Sunflowers, received through our Bulk Seed Exchange Program. Using the

sustainable practices of his Taos Pueblo ancestors, Johnny is restoring his farm's ecosystem, and shares his harvest with his family and community in northern New Mexico.

Today's young gardeners are the sustainable farmers of tomorrow, and local seeds nurture young students' connection to place and to the earth. When you support NS/S, you make sure children like those at Nosotros Academy in Tucson have access to free, desert-adapted ("magic") seeds for their learning garden. Awarded an NS/S Community Seed Grant last year, children at Nosotros "always look forward to getting down and dirty in the garden," say their teachers.

Your gift to Native Seeds/SEARCH helps sustain Native American cultures and provide home-grown nutritious food to families in need. Through our Native American Free Seed request program, contributions from our members helped provide roughly 1,200 servings of corn, beans, squash and melons for each family. "This program allows me to grow squash that I sometimes use as a meat replacement for dinner. Having four kids, this saves me money and provides me with healthier options for my family," says one recipient.

Your support for Native Seeds/SEARCH directly underwrites the cost of seed production each year. Your donations help us safely maintain the seeds in cold storage, and will enable us to expand our teaching garden and production area at the Conservation Center in Tucson. Every squash seed planted, every sweet corn kernel harvested, every seed shared and saved - it's all made possible through the support of people like you who understand the need to preserve this rich history for future generations.

From all of us at Native Seeds/SEARCH, we wish you a healthy and happy New Year!

With tremendous gratitude,
Joy Hought
Executive Director, Native Seeds/Search

Shutdown Leaves Food, Medicine and Pay in Doubt in Indian Country

By MITCH SMITH and JULIE TURKEWITZ

Native Americans, entitled to federal services under treaties, are bearing the brunt of the government shutdown and worried about more pain to come.

Arbiter sides with tribes in contract dispute with San Diego County Water Authority **By Teri Figueroa, San Diego Union-Tribune, 1/2/19**

An arbiter has sided with five local tribes in a dispute over what county water officials argued was a request that left them with an unexpected \$2.1 million budget deficit after the tribes won back lost water rights. At issue was a one-time loss to the San Diego County Water Authority in 2017. The dispute arose after the federal government restored water rights to the San Luis Rey Indian Water Authority, which represents the tribes, that year.

2019 Preview for U.S. Government Water Policy

What to watch for in the coming year: revisions to the **Lead and Copper Rule**, a public meeting to discuss a proposed reduction in the scope of the **Clean Water Act**, the first **national drinking water regulation** for a new contaminant in more than two decades, a **PFAS management plan**, and more in U.S. government water policy.

There's something about fire that mesmerizes us—its heat, its power, its beauty, its immense potential. Even though we've seen it a million times, when we're face to face with it, it pulls us in. This photo is fire.

This powerful, history-making photo is pure fire, and people can't get enough of it.

Historic Day: Two American Indian Women Become Members of Congress

Go behind the scenes of Reno's local public broadcast studio during this tour of KNPB Channel 5 Public Broadcasting. See yourself on green screen, learn how to operate the station's cameras, experience its new lighting system, tour the production booth and explore how public television gets made during this interactive Tech Wednesday on Jan. 9.

During this tour, adults and children will be able to experience how local programs get made. Some of the local productions KNPB produces include:

- ARTEFFECTS, which looks at an eclectic mix of individuals, events, exhibits and the way that the arts affect individuals and entire communities.
- WILD NEVADA, a local travel series that takes viewers on an armchair tour of Nevada.
- WORK OF ART: RENO PHIL, a year-long look at the Reno Phil as the organization celebrates its 50th anniversary.

This year, Reno's public broadcasting station celebrates 35 years of delivering educational, engaging and empowering television to northern Nevada. The station airs three channels of programming including:

- KNPB 5.1, which broadcasts popular shows such as PBS NewsHour Nature, Nova, PBS Masterpiece, Antiques Roadshow and local programs such as ARTEFFECTS and WILD NEVADA.
- KNPB CREATE 5.2, which primarily focuses on how-to, travel, cooking and DIY lifestyle programming
- KNPB PBS KIDS 5.3, which shows PBS Kids shows 24 hours a day, including favorites such as Daniel Tiger's Neighborhood, Arthur, Nature Cat, Wild Kratts, Curious George and so many others.

Don't miss this chance to see where the magic of public television happens in our community!
