One of the most powerful art pieces from Burning Man: A sculpture of two adults after a disagreement, sitting with their backs to each other. Yet, the inner child in both of them simply wants to connect. Age has many beautiful gifts but one we could live without is the pride and resentment we hold onto when we have conflicts with others. The forgiving, free spirit of children is our true nature. Remember this when you feel stubborn.

[Interior sends thousands of documents to House committee ahead of acting Interior Secretary David Bernhardt's Senate confirmation hearing](#)

By Stephanie Ebbs, ABC News, 3/26/19

The Interior Department has responded to requests from the House to provide more detail about acting Secretary David Bernhardt's schedules, just days before he testifies in his Senate confirmation hearing to become the secretary permanently. In response to a request from the House Natural Resources Committee the department said on Monday afternoon that it had sent almost 7,000 pages of documents related to Bernhardt's meetings and daily schedules. On Tuesday, Interior said they actually sent almost 27,000 pages of documents. In a previous letter, Bernhardt declined to provide any documents, saying "I have not personally maintained a calendar for years, and I have no intention of suddenly doing so now."

Ed note: Good time to work with one's delegation to obtain docs related to your community, particularly if the FOIA process has been giving you problems. sdc

[Sign the petition: Urge the Senate to show up for Native women and children by passing Savanna's Act!](#)

[SIGN THE PETITION](#)

This February, Alaska Senator Lisa Murkowski re-introduced Savanna's Act to the Senate.

Across the U.S., Native women are murdered at a rate [more than 10 times higher](#) than the national average. Despite widespread acknowledgement that this is a dire issue, Congress as a whole has yet to act on this.

With [about 150](#) Missing & Murdered Indigenous Women (MMIW) open cases in New Mexico and Washington State alone, and [similar legislation](#) to Savanna's Act being passed in New Mexico, **it is time for the Senate to show up for Native women and children by passing this historic legislation.** If passed, Savanna's Act would improve statistical data collection around murder and disappeared rates and support federal-state government MMIW investigation coordination.

In solidarity, Ntebo Mokuena, Daily Kos
