[In the Northern Hemisphere, the December solstice is the year's day of least sunlight, when the sun takes its lowest, shortest path across the sky. North of the Arctic Circle, it is the midpoint of the period of darkness, when even twilight doesn't reach the horizon. We asked a few of our Native...](#)

What the COP 25 demonstrations mean for Indigenous rights -

On 11 December 2019, activist demonstrations at the U.N. Climate Change Conference in Madrid (COP 25) escalated into a pinnacle moment of the conference and highlighting the anger felt by climate change activists around perceived inaction of chief decision-makers and lack of proper inclusion of human rights in climate change negotiations. Following the demonstrations, Landscape News spoke with Janene Yazzie, a member of the Native American Diné tribe and leader of the Indigenous Peoples Major

The Bill of Rights was adopted 228 years ago on this date December 15), in 1791. The bill is made up of the first 10 amendments to the United States Constitution, and it was adopted as one unit. It follows the precedent set by the Magna Carta (1215) and the English Bill of Rights (1689), both of which were early attempts at ensuring the rights of citizens against the power of the crown. Much of the credit for the United States Bill of Rights is due to George Mason, who was an admirer of the philosopher John Locke. Locke, in his *Two Treatises of Government* (1689), argued that government should exist for the protection of individual property, and that all people were equal in the state of nature. Mason had crafted a "Declaration of Rights" for Virginia's constitution in 1776, while serving in that state's legislature. The document impressed James Madison, who showed it to Thomas Jefferson. Jefferson, in turn, adopted some of its ideas when he wrote the Declaration of Independence.

In the summer of 1787, the Constitutional Convention met to craft the United States Constitution. The Anti-Federalists didn't approve of the document as written because it offered no protection to individual rights, and they refused to sign it. George Mason said, "I would sooner chop off [my] right hand than put it to the Constitution as it now stands." Jefferson wrote to Madison, "A bill of rights is what the people are entitled to against every government on earth." Eventually, the Federalists persuaded the Anti-Federalists to sign by promising them they would address the individual rights matter once the Constitution was ratified. James Madison's feelings were mixed, but he took up the task of writing a bill of rights, which he called "a nauseous project," and he introduced it into the first session of Congress in 1789. After some haggling, the 10 amendments were ratified as one unit, which guarantees, among other things, freedom of religion, freedom of speech, freedom of the press, freedom from unreasonable searches and seizures, and the right to a fair trial.

“The Drought Contingency Plan (DCP) is sort of a temporary patch to some of the Colorado River basin’s long-term water scarcity problems.” –Luke Runyon, a reporter for KUNC, in reference to the DCP, a water-sharing agreement between Arizona, California, Colorado, Nevada, New Mexico, Utah and Wyoming. The seven states met last week for the annual Colorado River Water Users Association Conference to discuss the DCP, as well as the longer-term future of the Colorado River. The DCP was established earlier this year after several years of deliberation, and specifies when and where water cuts will be necessary. [KNPR](#)

“Dwell on the beauty of life. Watch the stars, and see yourself running with them.”

– Marcus Aurelius

“For myself I am an optimist – it does not seem to be much use to be anything else.”

– Winston S. Churchill

“The moral test of government is how that government treats those who are in the dawn of life, the children; those who are in the twilight of life, the elderly; those who are in the shadows of life, the sick, the needy and the handicapped.” -HHH
