*Quality Control time: Long time readers know I routinely ask for critiques in the 00 issues. But since we are all "sheltering in place", I need to know you are getting the information and a little more humor you need. I have tried to put an extra emphasis on the education resources that have come on line for those dealing kids at home as well as the facts about specific legislation and emerging budgets. If you have had extra time, I hope you have explored research resources that have been previously listed over time -- or have gone to [www.shaynedel.com](http://www.shaynedel.com) to utilize the search engine to access accumulated resources over the last decade. Let me know!*

**ALERT!** (Edited from Peter Michel, UNLV Special Collections)

We have been notified by Jeff Kintop that the Nevada State Library and Archives has submitted a formal proposal to eliminate the position of Assistant Administrator for Archives and Records (State Archivist) merging it with the Assistant Administrator for the Library, and renaming the position Deputy Administrator. This proposal has been posted on the state's website with requests for comments or objections. [ ]

Needless to say we are concerned with this re-organization in that it would diminish the role of archives and records at the State Library and Archives, leaving them without an independent administrator and advocate. While the new Deputy would appear to coop the functions of the Assistant Administrator for Archives and Records, we do not believe that a person in this position, especially if a public librarian, would be able to provide the leadership and expertise in archives necessary to the State Library and Archives, to the state, and to represent us nationally. And as this person would also coordinate SHRAB we feel that the qualifications for this new position do not guarantee that the person would have the expertise and experience we would expect from the Coordinator.

**According to the notice comments and objections may be sent to Deputy Administrator Beverly Ghan at [bghan@admin.nv.gov](mailto:bghan@admin.nv.gov) no later than April 7, 2020.**

~~~~~

*This is in today's Journal because, of course, I would like you to submit a letter protesting this proposal.*

*I have several letters from other SHRAB members and Department memos if you are interested in reviewing for more information and insight. The most important point, however, is what will be the impact on you, your libraries and/or archives? This is what should be communicated to Ms. Ghan.*

*These two departments are not over-funded by any stretch of the imagination, Archives more than Libraries. While a looming crisis in state funding (see article below) bodes even more reduced quality and quantity of service, cutting a position (which could remain unfilled rather than abolished) is not a good longterm strategy.*

*Some of my other issues of concern is that the SHRAB was never noticed or consulted until this memo; neither have we been convened by the Administration which puts the State in violation of its own legislation; this body has provided a forum for collegial communication between various entities and if proposed structure is implements, will probably preclude local government entities -- including tribes -- from accessing NARA and related funding sources.*

*Please feel free to call or email me. Like you, I'm not going anywhere! sdc (775.827.9228)*

### **Sisolak planning steep budget cuts**

Anticipating a significant strain on state budgets caused by the new coronavirus, Gov. Steve Sisolak is telling state agencies to start planning for significant cuts.

**DOJ Wants to Suspend Certain Constitutional Rights During Coronavirus Emergency**

Peter Wade, Rolling Stone

Wade writes:  
"The Trump Department of Justice has asked Congress to craft legislation allowing chief judges to indefinitely hold people without trial and suspend other constitutionally-protected rights during coronavirus and other emergencies."

## Fighting the COVID-19 Public Health Crisis and Putting “Workers First”

### Unemployment Insurance: (\$260 billion)

**\*Full Paycheck Replacement:** \$600 increase for every American, which equates to 100 percent of wages for the average American without a paycheck struggling through the Crisis.

**Waiving Waiting Weeks:** Gets money in people’s pockets sooner by providing federal incentives for states to eliminate waiting weeks.

**Extension of Benefits:** An additional 13 weeks of federally-funded unemployment insurance benefits are immediately be made available.

**Expanding Access:** Allow part-time, self-employed, and gig economy workers to access UI benefits.

### Marshall Plan For Our Health System (\$150 billion)

The new \$150 billion fund is widely available to all types of hospitals and providers most affected by COVID-19, and it will be available to fund whatever is needed to defeat this virus. This includes:

**Equipment and Infrastructure:** Personal and protective equipment for health care workers, testing supplies, increased workforce and training, new construction to house patients, emergency operation centers and more.

**Enhanced Health Investments:** Additional funding is also dedicated to delivering Medicare payment increases to all hospitals and providers to ensure that they receive the funding they need during this crisis, and new investments in our country’s Strategic National Stockpile, surge capacity and medical research into COVID-19.

### Robust Worker and Transparency Protections on Government Loans

Tough new requirements not included in the McConnell bill have been added to government loans lent to companies.

- \*No stock buybacks or dividends for the length of any loan provided by the Treasury plus 1 year.
- \*Restrictions on any increases to executive compensation.
- \*Protect collective bargaining agreements.
- \*Real-time public reporting of Treasury transactions under the Act, including terms of loans, investments or other assistance to corporations.
- \*Prohibition on businesses controlled by the President, Vice President, Members of Congress, and heads of Executive Departments getting loans or investments from Treasury programs.
- \*Creation of Treasury Department Special Inspector General for Pandemic
- \*Recovery to provide oversight of Treasury loans and investments and a Pandemic Response Accountability Committee to protect taxpayer dollars.
- \*Creation of a Congressional Oversight Commission to enhance legislative oversight of pandemic response.

### Small Business Rescue Plan (\$377 billion)

\*\$350 billion in loan forgiveness grants to small businesses and non-profits to maintain existing workforce and help pay for other expenses like rent, mortgage, and utilities.

\*\$10 billion for SBA emergency grants of up to \$10,000 to provide immediate relief for small business operating costs.

\*\$17 billion for SBA to cover 6 months of payments for small businesses with existing SBA loans.

### **Protected Over 2 Million Aviation Industry Jobs**

Democrats secured direct payroll payments to keep millions of airline workers on the job and receiving paychecks. Airline companies will be prohibited from stock buybacks and dividends for the entire life of the grant plus one year. Collective Bargaining Agreements negotiated by workers will be protected.

### **Increased Direct Payments to Working Americans**

Democrats fought to double cash payments to the working class Americans from \$600 to \$1,200

An additional \$500 cash payment is available per child.

The full payment is available for individuals making up to \$75,000 (individual) and \$150,000 (married).

The value begins decreasing and then phases out completely for those making over the full payment income cap.

### **State and Local Coronavirus Expenditures Fund (\$150 billion)**

To assist States, Tribes, and local governments that must pay for new expenses related to COVID-19 response.

\$150 billion, with a small-state minimum of \$1.25 billion

Tribal set-aside of \$8 billion

### **Emergency Appropriations**

#### **(\$330 billion, including \$100 billion for hospitals and providers mentioned above)**

\$16 billion to replenish the Strategic National Stockpile supplies of pharmaceuticals, personal protective equipment, and other medical supplies, which are distributed to State and local health agencies, hospitals and other healthcare entities facing shortages during emergencies.

\$1 billion for the Defense Production Act to bolster domestic supply chains, enabling industry to quickly ramp up production of personal protective equipment, ventilators, and other urgently needed medical supplies, and billions dollars more for federal, state, and local health agencies to purchase such equipment.

\$4.3 billion to support federal, state, and local public health agencies to prevent, prepare for, and respond to the coronavirus, including for the purchase of personal protective equipment; laboratory testing to detect positive cases; infection control and mitigation at the local level to prevent the spread of the virus; and other public health preparedness and response activities.

\$45 billion for FEMA's Disaster Relief Fund, more than doubling the available funding, to provide for the immediate needs of state, local, tribal, and territorial governments, as well as private non-profits performing critical and essential services, to protect citizens and help them recover from the overwhelming effects of COVID-19. Reimbursable activities may include medical response, personal protective equipment, National Guard deployment, coordination of logistics,

safety measures, and community services nationwide.

\$30.75 billion for grants to provide emergency support to local school systems and higher education institutions to continue to provide educational services to their students and support the on-going functionality of school districts and institutions.

\$25 billion in aid to our nation's transit systems to help protect public health and safety while ensuring access to jobs, medical treatment, food, and other essential services.

\$10 billion in grants to help our nation's airports as the aviation sector grapples with the most steep and potentially sustained decline in air travel in history.

\$3.5 billion in additional funding for the Child Care Development Block Grant to provide child care assistance to health care sector employees, emergency responders, sanitation workers, and other workers deemed essential during the response to the coronavirus.

More than \$7 billion for affordable housing and homelessness assistance programs. This additional assistance to prevent eviction and for people experiencing homelessness

More than \$6.5 billion in Federal funding for CDBG, the Economic Development Administration, and the Manufacturing Extension Partnership to help mitigate the local economic crisis and rebuild impacted industries such as tourism or manufacturing supply chains.

\$400 million in election assistance for the states to help prepare for the 2020 election cycle, including to increase the ability to vote by mail, expand early voting and online registration, and increase the safety of voting in-person by providing additional voting facilities and more poll- workers.

**\$2 billion in funding to strengthen response capacity and support tribal governments:**

**\$1.03 billion to the Indian Health Service to support tribal health care system response efforts;**

**\$100 million more for the USDA Food Distribution Program for Indian Reservations;**

**\$453 million to assist tribes through the Bureau of Indian Affairs;**

**\$69 million to help tribal schools, colleges and universities through for the Bureau of Indian Education;**

**and \$300 million more to the HUD Indian Tribal Block Grant program.**

- \$1 billion to recapitalize Amtrak after steep ridership declines related to the outbreak. This will keep thousands of Amtrak employees employed, and ensure America's intercity passenger rail stays on track, continuing service in the Northeast and nationwide.

#### **Student Loan Relief**

- To alleviate the pressure of student loan costs during this crisis, Senate Democrats fought for the inclusion of tax relief encouraging employers to implement student loan repayment programs. This provision will exclude up to \$5,250 in qualifying student loan

repayments paid by the employer on behalf of the employee from income for income tax purposes.

## JOHN HOPKINS HOSPITAL - Information about COVID19

\* The virus is not a living organism, but a protein molecule (RNA or DNA) covered by a protective layer of lipid (fat), which, when absorbed by the cells of the ocular, nasal or buccal mucosa, changes their genetic code. (mutation) and convert them into aggressor and multiplier cells.

\* Since the virus is not a living organism but a protein molecule, it is not killed, but decays on its own. The disintegration time depends on the temperature, humidity and type of material where it lies.

\* The virus is very fragile; the only thing that protects it is a thin outer layer of fat. That is why any soap or detergent is the best remedy, because the foam CUTS the FAT (that is why you have to rub so much: for 20 seconds or more, to make a lot of foam).

By dissolving the fat layer, the protein molecule disperses and breaks down on its own.

\* HEAT melts fat; this is why it is so good to use water above 25 degrees Celsius for washing hands, clothes and everything. In addition, hot water makes more foam and that makes it even more useful.

\* Alcohol or any mixture with alcohol over 65% DISSOLVES ANY FAT, especially the external lipid layer of the virus.

\* Any mix with 1 part bleach and 5 parts water directly dissolves the protein, breaks it down from the inside.

\* Oxygenated water helps long after soap, alcohol and chlorine, because peroxide dissolves the virus protein, but you have to use it pure and it hurts your skin.

\* NO BACTERICIDE OR ANTIBIOTIC SERVES. The virus is not a living organism like bacteria; antibodies cannot kill what is not alive.

\* NEVER shake used or unused clothing, sheets or cloth. While it is glued to a porous surface, it is very inert and disintegrates only  
-between 3 hours (fabric and porous),

-4 hours (copper and wood)  
-24 hours (cardboard),  
- 42 hours (metal) and  
-72 hours (plastic).

But if you shake it or use a feather duster, the virus molecules float in the air for up to 3 hours, and can lodge in your nose.

\* The virus molecules remain very stable in external cold, or artificial as air conditioners in houses and cars.

They also need moisture to stay stable, and especially darkness. Therefore, dehumidified, dry, warm and bright environments will degrade it faster.

\* UV LIGHT on any object that may contain it breaks down the virus protein. For example, to disinfect and reuse a mask is perfect. Be careful, it also breaks down collagen (which is protein) in the skin.

\* The virus CANNOT go through healthy skin.

\* Vinegar is NOT useful because it does not break down the protective layer of fat.

\* NO SPIRITS, NOR VODKA, serve. The strongest vodka is 40% alcohol, and you need 65%.

\* LISTERINE IF IT SERVES! It is 65% alcohol.

\* The more confined the space, the more concentration of the virus there can be. The more open or naturally ventilated, the less.

\* You have to wash your hands before and after touching mucosa, food, locks, knobs, switches, remote control, cell phone, watches, computers, desks, TV, etc. And when using the bathroom.

\* You have to HUMIDIFY HANDS DRY from so much washing them, because the molecules can hide in the micro cracks. The thicker the moisturizer, the better.

\* Also keep your NAILS SHORT so that the virus does not hide there.
