History of the Tiwahe Foundation

The Foundation evolved from origins as a culturally responsive grantmaking initiative of three Minnesota family foundations known as the American Indian Family Empowerment Program. Launched in 1993 initially by the Marbrook Foundation, American Indian Family Empowerment Program was the inspiration of Markell Brooks. It operated as a donor-designated fund with monies from a collaborative of the Marbrook, Westcliff and Grotto Foundations. In 2009, American Indian Family Empowerment Program transformed into a new entity, the Tiwahe Foundation. While Tiwahe Foundation is an independent community foundation with its own board of directors, the original American Indian Family Empowerment Program remains part of the ongoing work.

The Tiwahe Foundation is a place for giving — and giving back — that benefits the well-being of American Indian people and communities in Minnesota. We are a community foundation of friends and supporters — Indian and non-Indian — who have resources, time, and talents to share. Together, we all work to unleash more philanthropy and generosity that are not only held within every person but also embodied collectively.

We think of this as the Circle of Giving — a continuous cycle of success grounded in indigenous culture that recognizes that giving benefits both giver and receiver. The Tiwahe Foundation is a trusted community partner, connector and resource. Our core work involves:

- Investing in the needs of individuals relative to education, economic and community development, and tribal culture (through the American Indian Family Empowerment Program);
- Promoting Indian leadership development and leadership network formation;
- Building a permanent endowment for operations; and
- Practicing core values such as family, respect, trust, and generosity in operationalizing the Circle of Giving, so as to build a self-sustaining community.

Native American smudging is an act that illuminates something primordial within people, connecting both smoke with spirituality in remarkable ways. This is a common ceremonial ritual amongst the ingenious people, held closely within these cultures to purify, spiritually cleanse, and bless. So, whether you are a Native American yourself, or simply want to know more about the culture to expand your insights, then understanding smudging is undoubtedly an area to not overlook.

What Is Native American Smudging?

In order to fully grasp the concept and potentially do this ritualized act yourself, first we must take a look at what smudging is exactly. By definition, smudging is a ceremony that consists of burning plant herbs and resins in either a clay or shelled bowl while prayers are being done. This results in a smoke cloud formation that is believed to cleanse the air and those within it.

Smudging is, in fact, the most popular ritual used to clear people and places of elements that are not serving them any good. As a whole, smudging is u

The Song of Hiawatha (excerpt)

by Henry Wadsworth Longfellow

In the green and silent valley,

By the pleasant water-courses,

Dwelt the singer Nawadaha.

In the green and silent valley.

"There he sang of Hiawatha,

Sang the Song of Hiawatha,

Sang his wondrous birth and being,

How he prayed and how be fasted,

How he lived, and toiled, and suffered,

That the tribes of men might prosper,

That he might advance his people!"

Ye who love the haunts of Nature,

Love the sunshine of the meadow,

Love the shadow of the forest,

Love the wind among the branches,

And the rain-shower and the snow-storm.

And the rushing of great rivers

Through their palisades of pine-trees,

And the thunder in the mountains,

Whose innumerable echoes

Flap like eagles in their eyries;—

Listen to these wild traditions,

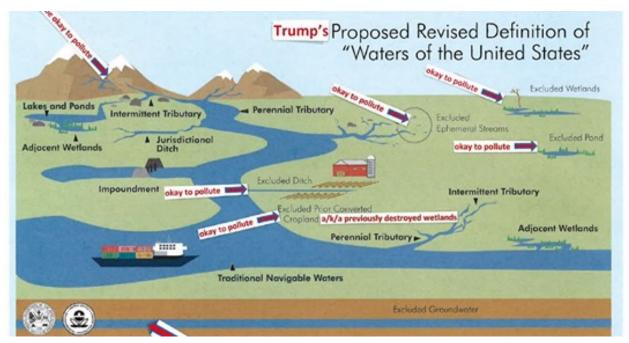

To this Song of Hiawatha!
